To the QUEEN's most Excellent Majesty.

The humble Address of your most loyal and faithful Subjects, the General Assembly of your Colony of *New-York*, in *America*.

Most gracious Sovereign,

BEING *sensible in the highest Degree of the many Blessings we have enjoyed during your Majesty's most happy and glorious Reign, we humbly take this Occasion, to tender your Majesty, our due Acknowledgments and hearty Thanks for the same, and in particular for your Majesty's great Grace and Favour in the present Expedition, to reduce* Canada *and* Newfoundland, *entirely to your Majesty's Subjection and Dominion, which as its grounded not only, on the many Wrongs, Injuries and Losses, sustained by your Majesty's good Subjects from those* French *Incroachments, but on the vast Advantages that will accrue to the* British *Empire on the Success of the Undertaking, is an undeniable Proof of your Majesty's great Prudence and inimitable Goodness to, and Care of all your Subjects.*

We do not fail in using our utmost Endeavours, in contributing towards attaining the desired End (which with the Favour of Almighty God) seems indisputable, and its our hearty Prayers, this and many other Conquests may be added to your Majesty, with a long and prosperous Reign.

To the QUEEN's most Excellent Majesty.

Most gracious Sovereign,

WE *your Majesty's most dutiful and loyal Subjects of your Colony and Plantation of* New-York *in* America, *in General Assembly convened and met, most humbly crave Leave to offer to your Majesty's royal Consideration;*

That not only during the whole Course of the late and present War with France, *this Colony has been greatly burthened with extraordinary Levies, for it's Defence against the common Enemy, but the Charge of the ordinary Support of the Government, has been very great and exorbitant, in Proportion with the Colonies adjacent.*

That this your Plantation (though one of the least in your Majesty's Dominions in America) *has long laboured under many Hardships and Difficulties, by Occasion whereof, our Trade is decayed, the Rents of our Houses and Lands decreased, the little Wealth it possessed, and the best and most industrious of it's Inhabitants driven into the neighbouring Colonies, enticed by the Ease and Indulgence of the Government in those Parts.*

That in the last intended Attempt on Canada, *induced by the Commands of your Majesty, and the solid Reason of the Design, we not only chearfully supplied our Proportion of Men allotted, though very unequal to our Neighbours* (Connecticut *having twice as many, and* New-Jersey *an equal Number of People) but solely bore the Charge of Victualling the* 5 *Nations, and all other* Indians, *your Majesty's standing Forces, the building and making Bottoes and Canoes, and many other incidental Charges, too many to enumerate to your Majesty.*

That in the present Expedition (to which Almighty God grant good Success) although we are very sensible of the vast Disproportion of Men and Money required of us, compared with those in favour of our Neighbours, yet with all alacrity we are doing our utmost to obey your royal Commands, though our extream Poverty and Inability obstructs our Inclinations to fulfill them as we desire.

The

The Diſadvantages we ſink under, it's our Apprehenſion, muſt proceed from the ſiniſter Inſinuations made to our Prejudice, the Miſrepreſentation of the State and Condition of this Colony, by ſuch who find it their Intereſt to be our Enemies, and the Want of a Perſon fitly authorized and enabled to ſpeak and act for us at your Majeſty's Court, and upon all Occaſions to appear on our Behalf, and anſwer to ſuch Matters and Things as may concern this Colony.

We therefore are moſt humble Suitors to your moſt ſacred Majeſty, that graciouſly weighing our preſent and paſt Circumſtances, you will pleaſe to accept of our moſt hearty Endeavours as far as we are able, and that wherein we are deficient, your Majeſty's royal Commiſeration, Clemency and Bounty, will ſupply the Defects, and grant us ſuch further Relief, as is agreeable to your Majeſty's great Goodneſs and Juſtice. We moſt fervently pray to Almighty God, for the long Continuance of your Majeſty's mild, pious and happy Reign.

Then the Speaker, with the Houſe attended accordingly; being returned, he acquainted the Houſe, he had preſented their two Addreſſes to her Majeſty to his Excellency, who was pleaſed to ſay, he would tranſmit them to her Majeſty; he alſo acquainted them, his Excellency was pleaſed to give his Aſſent to, and publiſh the following Acts, *viz.*

An Act, *to appoint Commiſſioners to purchaſe Proviſions and other Neceſſaries for the Expedition to reduce* Canada.

An Act, *to enable* Thomas Whitehead, *to ſell and diſpoſe of ſome Part of the Lands, deviſed to him by his Father,* &c.

An Act, *for levying the Sum of* Ten Thouſand Pounds.

An Act, *for the better rewarding of Volunteers on the preſent Expedition againſt* Canada, *to be levied in the Cities of* New-York *and* Albany, *and the Pay of other Officers and Uſes, relating to the ſame Expedition.*

Gentlemen,

THOUGH *your Meetings have been frequent, I find with unſpeakable Sorrow the Occaſions for them, to multiply the*

the Miscarriage of that great, that well concerted Enterprize, the chief Advantage of which was to redound to you, to her Majesty only, the Glory and Pleasure of having purchased for you, at a very dear Rate, a lasting Tranquility. I say, this fatal Miscarriage, calls loud for your utmost Application at this Time, to obviate the Designs of an Enemy, animated by our ill Success, and prompted by Revenge, who without Doubt, will speedily make some Attempt upon her Majesty's Subjects, where they find them most unprovided.

For this Cause, I must now again, with all the Earnestness imaginable, intreat you to take into your Thoughts, the present State of her Majesty's Government here, which hitherto hath had no Support, that the Officers thereof, may be enabled with chearful Hearts and ready Hands, to undertake what may be necessary for our common Defence.

That you would also consider, and find a speedy Remedy, for the woeful State of your Frontiers of Albany *and* Schenectady, *of which these Letters from the Mayor and Corporation of* Albany, *and the Commissioners of* Indian *Affairs, will sufficiently inform you. For this Purpose, I believe, you will judge it necessary, to continue in Pay during this Winter,* 200 *Men at least, of the Troops raised by this Province, for strengthening those Garrisons, and to find Means to repair those Forts, which at present are in Ruins.*

I must also put you in Mind, that the Militia Act will quickly expire by its own Limitation, and so wants a Continuation by another.

The Debts of the Government cry so loud, that I am confident there is no Body here, who has not been sometimes moved with a generous Compassion, for those who suffer under them.

Find out Remedies for those Evils, and the best of Princes will thank you; your Enemies fear you, your Fellow Subjects applaud you, your Posterity bless you, and I, with all the Efforts of my Life, endeavour to serve you.

A Meſſage from the Council by Capt. *Walter*, That, that Board was ſurpriſed to find in the Order of this Houſe to Mr. *Cuyler*, of the 14th Inſtant, to return to that Board two Money Bills, to which they had made ſome Amendments; that this Houſe ſay, They are well aſſured the Council cannot but be ſufficiently informed of the undoubted Right, and conſtant Reſolves of this Houſe, not to admit of any Amendments to be made by the Council to Money Bills; for that Board is not ſufficiently informed either of the one or the other; on the contrary, the Council find, that in an Act paſſed 1703, entitled, *An* Act, *for raiſing* One Thouſand Five Hundred Pounds, *towards erecting two Batteries at the* Narrows, to which the Council made many Amendments; that the Aſſembly agreed to 23, without any Alteration or Addition, and to another with ſome Addition. That this Board likewiſe finds that the Aſſembly agreed to ſome Amendments made by the Council to the Bill, entitled, *An* Act, *to charge the ſeveral Cities and Counties in this Colony with* One Hundred and Forty Three Pounds, Ten Shillings and Three Pence, *for fitting and furniſhing a Room for the General Aſſembly, with a Lobby, in the City Hall of the City of* New-York; both which, not to Inſtance in others, (which it is eaſy to do from the Beginning of the Aſſemblies here) are enough to ſhew that the Council are not ſufficiently informed of the Aſſembly's undoubted Right, and conſtant Reſolves not to admit of any Amendments to be made by the Council to Money Bills.

That the Council conceive that they have a Right to alter or amend Money Bills, both from the Practice, and likewiſe by their being a Part of the Legiſlature, conſtituted, as they conceive, by the ſame Power as the Aſſembly are, which is, by the mere Grace of the Crown, ſignified in the Governor's Commiſſion. And we know of no Power the Crown has given to the Aſſembly, to take that Right from the Council, by any Reſolves of theirs; the Council rather believe, if it wanted any Ratification, that her Majeſty would be pleaſed to grant it to the Council, for they find that the Lords of Trade and Plantations are of Opinion, that the Council have undoubtedly as much to do in forming of Bills for the granting and raiſing of Money, as the Aſſembly; and conſequently have a Right to alter or amend any ſuch Money Bills, as well as the Aſſembly, as it may be ſeen by the Lord *Cornbury's*

Cornbury's Speech to the Assembly of this Province, the 27th of *September*, 1706, which is printed with the Journals of the Assembly.

The engrossed Bill, entitled, *An* Act, *for reviving an Act, to prevent the selling or giving of Rum or other strong Liquors to the* Indians *in the County of* Albany; was read the third Time.

Resolved, The Bill do pass.

Ordered, That Mr. *Lakerman*, do carry the Bill to the Council, for their Concurrence.

Then the House adjourned to 9 of the Clock, To-morrow Morning.

Die Sabatii, 9 ho. A. M. Nov. 17, 1711.

THE Message from the Council Yesterday, by Capt. *Walter*, being taken into Consideration,

Ordered, That the following Answer be returned to that Board, *viz.*

The General Assembly of this Colony, by many clear Reasons, are fully satisfied with the Right they have, not to admit of any Amendments by the Council, to Money Bills, and therefore continue their former Resolutions.

'Tis true the Share the Council have (if any) in the Legislation, does not flow from any Title they have, from the Nature of that Board, which is only to advise, or from their being another distinct State or Rank of People, in the Constitution which they are not, being all Commons, but only from the meer Pleasure of the Prince, signified in the Commission.

On the contrary, the inherent Right the Assembly have to dispose of the Money, of the Freemen of this Colony, does not proceed from any Commission, Letters Patent, or other Grant from the Crown, but from the free Choice and Election of the People; who ought not to be divested of their Property (nor justly can) without their Consent.

Any former Condescentions of other Assemblies, will not prescribe to the Council, a Privilege to make any of those Amendments, and therefore they have it not.

If the Lords Commissioners for Trade and Plantations, did conceive no Reason, why the Council should not have Right to amend Money Bills, is far from concluding there are none; the Assembly understand them very well, and are sufficiently convinced of the Necessity they are in, not to admit of any Incroachment so much to their Prejudice.

Ordered, That Major *Van Brunt*, do carry this Answer to the Council.

Another by Mr. *Byerley*, to acquaint this House, that Board do agree to the Bill, entitled, *An* Act, *for the Treasurer's paying* 3750 *Ounces Plate, to his Excellency*; without any Amendment.

Die Veneris, 10 *ho. A. M. Nov.* 23, 1711.

THE Houſe taken into Conſideration the Meſſage from the Council Yeſterday, by Mr. Secretary,

Ordered, That the following Opinion of this Houſe, be carried to his Excellency.

In Obedience to your Excellency's Deſire, ſignified to us Yeſterday, in a Meſſage from the Council, the Aſſembly ſay, that being not a Part of a Government that is independent, and *Sui Juris*, they find very much Difficulty in coming to any abſolute Determination, as well from Arguments of Right, as Conveniency and Utility.

They have never yet undertaken any offenſive War, but in Compliance with the Orders of Superiors, who had indiſputable Right ſo to do, for what relates to Self-Preſervation and Defence, they think themſelves juſtified both by the Law of Nature and the Nation.

Your Excellency or any of the Council's going to the Congreſs propoſed, not repreſenting the People of this Colony, as the Governors and Councils of *Connecticut* and *Rhode-Iſland*, and Council of the *Maſſachuſett*'s, do reſpectively of thoſe Colonies, being their Choice, might give a Colour, but no Right, to oblige or charge this Colony by any Agreement whatſoever made there.

If it ſhould be agreed, That they have a Right to make an offenſive War, this Colony, ought never to come into any Confederacy, without being allowed a Negative in all Concluſions to be made, they being the beſt Judges of their own Abilities and Strength, the Want of which in other Undertakings, this Colony has felt to their Loſs and Smart.

Mr. *Vaudruel*'s Aſſertion or the Contents of his Letters to *France*, are to the Aſſembly unknown, they are of Opinion, the ſeveral fruitleſs Attempts, ſo much to the opprobrious Scandal of the *Engliſh* Nation, by whom projected, or by whom betrayed or retarded, remains a Miſtery to many, have infuſed a Contempt and Rage, in an inſulting Enemy, and not a little contributed to encourage their Spoils and Barbarities.

The Obſtructions made by the Council, in the paſſing of Money Bills here, will wholly debilitate this Colony, in this, as well as all other Affairs, in which recourſe muſt be had to the Purſes of the People, the ſole diſpoſing whereof, ought juſtly to reſide in the Owners, or their Repreſentatives, and is a Right which the Aſſembly never can recede from, without betraying the Truſt repoſed in them, by their Electors.

The Seaſon of the Year is ſo far advanced, that no Progreſs can well be made this Winter, the Spring may produce freſh Orders from *Britain*, or new Occurrences, which may give riſe to other Councils than now can be taken. In the mean Time, they offer this to your Excellency, as the Opinion of the General Aſſembly.

Ordered, That Lieut. Col. *Willet*, do carry the Opinion of this Houſe to his Excellency, and return the Bill, entitled, *An* Act, *for ſundry Sums of Money to be paid by the Treaſurer*, to the Council, for their Concurrence.

The Houſe adjourned to 10 o'Clock, Tomorrow Morning.

Die Sabatii, 10 *ho. A. M. Nov.* 24, 1711.

Reſolved,

THAT the Erecting a Court of Equity, without Conſent in General Aſſembly, is contrary to Law, without Precedent and of dangerous Conſequence to the Liberty and Property of the Subjects.

Reſolved, That the eſtabliſhing Fees, without Conſent of the General Aſſembly is contrary to Law.

The Petition of Mr. *Henry Beys*, V. D. M. was preſented to the Houſe and read, praying this Houſe to take his pious Intentions, ſincere Endeavours, as a Miſſionary to the Congregation of *New-Harlem*, and unhappy Circumſtances into their ſerious Conſiderations, and find a convenient Expedient for his better Support and Encouragement, the leaſt of which he hath never met with, ſince he came into this

Country, nor received a Farthing for his performing the Duties of a Miniſter to the ſaid Congregation.

This Colony being at preſent involved in a vaſt and great Expence, cannot think of any proper Remedy for the Petitioner.

The Houſe adjourned to 2 o'Clock, in the Afternoon.

Ordered, That the Bill, entitled, *An* Act, *for ſundry Sums of Money to be paid by the Treaſurer*, with the Amendments, be returned to the Council, with the reiterated Reſolve of this Houſe, not to admit of any Amendments to Money Bills, and that Mr. *Lakerman*, do carry the ſame.

Gentlemen,

I Can never perſuade myſelf, that you have any real Pleaſure, in hearing the daily Cries and Complaints, of the Officers of the Government and others, who have juſt Demands upon it, whilſt the Remedy is ſo much in your Power; and yet it ſeems ſtrange, that during the Space of two Years, that I have had the Honour to be at the Head of it, in a very active Time, and conſequently at great Expences, there has not been one Farthing given towards its Support, for what Bills have been offered for that Purpoſe, have either been ſo deficient, or clogged with ſuch Clauſes and Circumſtances, as made it impoſſible for the Council to paſs them, without an apparent Breach of her Majeſty's Inſtructions, which are the conſtant and fixed Rules of their and my Proceedings, whatſoever Weight they may bear with you; and when they as it was their Duty, amended them, you have as often reſolved not to admit ſuch Amendment, upon a very ill grounded Pretence, that the Council had no right to amend Money Bills. I have ſufficient Warrant to affirm that Pretence to be ill grounded, from this Paragraph in the Lords Commiſſioners of Trade's Letter to me, of the 13th of *November* laſt, in theſe Words;

'As to the Aſſembly's Pretence, that the 'Council cannot amend a Money Bill, it is 'groundleſs, and will not be allowed of here,

'the Council having an equal Right with 'them in granting of Money, there being 'nothing in her Majeſty's Commiſſion to you 'under the great Seal of this Kingdom to the 'contrary, by Virtue of which Commiſſion, 'they ſit an Aſſembly, and therefore you 'will do well to acquaint them herewith, 'that they may no longer inſiſt upon what is 'ſo ill grounded.'

In the next Place, I am to put you in Mind of the Danger on your Frontiers, which you will ſufficiently underſtand by this Repreſenſentation from the People there. The two Forts now a building in the *Indian* Country, muſt be garriſoned forthwith by her Majeſty's Troops in this Province; and theſe Letters from the Governor of *Bermudas*, as well as other good Advices, which I have received, will convince you of the Neceſſity I lie under, of calling for one more of the Independent Companies from *Albany*, for the Security of this Place, not being very ſure upon what Parts this Storm is to break, it being alſo more than probable, that the Effort will be made where they judge we are leaſt prepared to receive them. This I think ſufficient to convince you of the Neceſſity of raiſing a Force proportioned to the preſent Exigency.

If I may prevail with you at this Time, to lay aſide all Animoſities and needleſs Diſputes, and heartily to take into your Conſideration, what ſo nearly concerns your Peace and Welfare, and that of your Poſterity, I have my Wiſh, if not, I muſt reſt ſatisfied with the Comfort of having done my Duty, in Admoniſhing you, and the Teſtimony of a good Conſcience, for what have I neglected within the Compaſs of my Power, by Night or Day, for your Service? And whoſe Ox or whoſe Aſs have I taken?

Mr. Speaker, His Excellency requires the Attendance of this Houſe immediately at the Council Chamber.

The Speaker, with the Houſe, attended accordingly; and being returned, Mr. Speaker acquainted them, his Excellency made

made a Speech, and had obtained a Copy thereof, which was read, and is as followeth, *viz.*

Gentlemen,

I *Flatter myself, that this Session may put an End, to all Disputes and Misunderstandings, that have fallen out between the several Parts of the Legislature of this Colony, about the Revenue for Support of Government; the more because the contending Parties seem agreed, as to the Necessity of settling such a Revenue, and to differ only about the Measures and Means. The Reasons given for the extraordinary Caution in the Proceedings relating to that Matter, and which I assure you have had their due Weight with me, are, former Misapplications of publick Funds, by which Means, private Persons are deprived of their Due, and the Province loaded with unnecessary Debts.*

I wish from my Heart, it were as easy a Matter to find a Remedy for past Miscarriages, as I am confident it is to assign one for effectually preventing the like for the Future; which last, I now offer you, and make no doubt of your Acceptance of it, it being sufficient for the End proposed, and indeed, the only one in my Power, her Majesty's royal Instructions to me, containing, the following Commands; "You are not to suffer any publick Money whatsoever, to be issued or disposed of, otherwise than by Warrant "under your Hand, by and with the Advice and Consent of the "Council; but the Assembly may be nevertheless, permitted from "Time to Time, to view and examine the Accounts of Money, "or Value of Money disposed of, by Virtue of Laws made by "them, which you are to signify to them, as there shall be Occasion." Which is but the Repitition of a Clause in my Patent.

The Expedient I propose, is contained in the following Heads; It may be Enacted in the Bill or Bills for settling a Revenue, that the Receiver General, who has a Patent under the Broad Seal, who has given Security in England, *and shall if demanded, give the same within the Colony, for the due Execution of his Office, be obliged at the Expiration of every three Months, or upon every Quarter Day, to lay before the Governor and Council, an Account of the Money by him received for that Use during that Time.*

That every Quarter Day, all Persons who have been during the preceeding three Months, employed in the Service of the Government, deliver in their Accounts of Service, Money or Goods so employed, which being examined and allowed by the Governor and Council, that if the Revenue for that Quarter, amounts to a Sum sufficient for that Demand, then the Governor with the Consent of the Council, may issue his Warrant for such Sums, on the Receiver General; if the Revenue in that Quarter falls short of that Demand, the Governor is then, to grant Warrants for so much only, as it does amount at, and whensoever the Revenue shall exceed that Quarter, what has been left unpaid in any preceeding Quarter, to be paid out of that Overplus, by Warrants then granted as formerly, that all be obliged to pay them in Course as numbered.

And for the more effectual preventing the Issue of any Warrants for more Money, than there may be in the Receiver's Hands, at the Expiration of every Quarter, It may be enacted, *That it be expressed in each Warrant, that Sum be payable out of such other Sum, being the amount of the Revenue for such a Quarter; no Warrants to be issued, until such Time as the Receiver General, shall have laid before the Governor and Council, an Account of the Revenue by him received that Quarter; that he be obliged to pay all such Warrants, as shall be drawn for that Sum in their Course, within a certain Number of Days, if demanded, and upon his refusal or non-compliance, the Person or Persons, having such Warrants, to have an Action of Debt against him for the same.*

That the Receiver General, be obliged to lay before the Assembly, when sitting and requiring the same, an Account of the Revenue received, and of the Warrants paid by him.

That all Persons demanding the same, may at the Office Hours, have recourse to his Book of Accounts of the Revenue.

By these Means, the only material Objection being removed, I can hardly be induced to believe, that you will any longer defer, the doing of what is so absolutely necessary, and what her Majesty most assuredly expects from you; or that you can expect from me, what I cannot do, without incurring her highest Displeasure, the heavy Penalty annexed to the Breach of her royal Instructions.

The engroſſed Petition and Addreſs of this Houſe, to the Queen's moſt excellent Majeſty, was preſented to the Houſe, and read, and ſigned by Mr. Speaker, and is as followeth, *viz.*

To the QUEEN'S *moſt excellent Majeſty.*

The humble Petition and Addreſs, of the General Aſſembly of the Colony of New-York *in* America.

Moſt gracious Sovereign,

IN the whole Extent of your Majeſty's Empire, there is not a People who have a livlier Senſe of your Majeſty's Bounty and Juſtice, nor on whoſe Hearts are truer Impreſſions of Gratitude for the ineſtimable Benefits of your Majeſty's Governments, than your faithful and loyal Subjects of your Colony of *New-York*.

Our Aſſemblies have always cheerfully, as well as liberally contributed (without conſidering our Abilities) towards defraying the Charges of their Governors, and without moleſting their Superiors with Murmurs or the leaſt Complaints, born the Miſapplication of the publick Monies, and the Enormities of thoſe cloathed with a deligated Power, with the ſame Patience and Temper, as they have the Inclemency of the Air, and other inevitable Accidents and Afflictions.

It is with the ſame Chearfulneſs, that our Aſſemblies have from Time to Time, and do ſtill continue (notwithſtanding the extraordinary Levies, which on Occaſions of the Expeditions againſt *Canada*, have of late, been very conſiderable and unequal upon us) to raiſe Money for the Support of the Government, by ſuch Ways and Means, as is conceived leaſt Burthenſome to the Inhabitants of this Colony, and the Diſputes which aroſe on that Occaſion, were chiefly in whoſe Hands the ſaid Money ſhould be lodged, and how iſſued, which (on our Parts) was only to prevent ſuch Miſapplications and Inconveniencies neceſſarily attending, and with no other Intent whatever.

It is with the greateſt Grief, we find our ſelves under a Neceſſity of offering to your Majeſty's Conſideration, the Apprehenſions we are under of being prejudiced by Miſrepreſentations, which we fear may too eaſily gain Credit, and Affairs of the utmoſt Conſequence be determined, without examining what thoſe who are chiefly intereſted can ſay for themſelves.

We therefore, moſt humbly beſeech your Majeſty, to give Inſtructions to your Governor here for the Time being, to give Aſſent to Law to be paſſed, for the General Aſſemblies appointing an Agent or Agents, to attend your Majeſty's Court and Councils, to preſent ſuch Things on their Behalf, as may be tho't neceſſary, and to anſwer any Objections may be made to the Conduct of your Majeſty's Subjects in theſe Parts, and alſo, that they may be permitted to raiſe ſuch Sums of Money, for defraying the Expences of ſuch Negotiation, as your Majeſty in your royal Wiſdom ſhall judge expedient.

This (as we conceive) agreeing with natural Juſtice and Equity, we hope from your Majeſty's matchleſs Piety and eminent Goodneſs, that has been ſo extenſive to all your Subjects, moſt fervently praying Almighty God, for a long Continuance of your Majeſty's moſt juſt, mild and glorious Reign.

Gentlemen, His Excellency commands your Attendance at the Council Chamber immediately.

And they attended accordingly, where they took the Oaths, and made and ſigned the Declaration according to Law; then his Excellency directed them to chuſe their Speaker; they returned, and choſe Mr. *William Nicoll,* for their Speaker, whom they preſented to his Excellency, and was approved, and afterwards, Mr. Speaker demanded their antient Rights and Privileges, which were granted. Then his Excellency was

was pleaſed to make a Speech; the Houſe being returned, the Speaker aſſumed the Chair, and acquainted the Houſe, his Excellency had made a Speech, which he had acquired a Copy of, which was read; and is as followeth, *viz.*

Gentlemen,

YOU are a new Aſſembly, and ſo not accountable for the wrong Steps in the former, or concerned in the Vindication of them, ſo what I am about to ſay, muſt not be otherwiſe conſtrued, than as a Caution to you, that you walk not in their Ways ſo diſpleaſing to her Majeſty, and ſo juſty reſented by her.

You are called together in Order to ſettle a Revenue for the Support of her Majeſty's Government, not to ſettle the Government, for that is already done by the only Authority upon Earth that has a right to do it; ſo to ſave your Time, and ſpare you Trouble, I ſhall now inform you of ſome Things, that will be needleſs for you to endeavour or Attempt; for this amongſt other good Reaſons, that they are not within my Power to grant, of which I ſhall be able at any Time, to convince the moſt ſcrupulous amongſt you, when he ſhall deſire it.

Firſt, It will be in vain for you to endeavour to lodge the Money, deſtined for the Support of Government, in the Hands of any other, than the Officers appointed by her Majeſty for that very Purpoſe, by her Commiſſion under the Great Seal of *England*; for by the ſame Rule and Parity of Reaſon, you may aſſume to yourſelves, a Power of nominating a Perſon or Perſons, for executing the Office of Governor; nevertheleſs, if you are ſo reſolved, you may put the Country to the Expence of a Treaſurer, for the Cuſtody of Money raiſed for extraordinary Uſes.

In the next Place, it will be fruitleſs to attempt to divert the Courſe of publick Payments, or to put them into any other Channel, than that preſcribed by her Majeſty's Letters Patent and Inſtructions, which is a Warrant under the Hand of the Governor, by and with the Advice and Conſent of her Majeſty's Council; that Attempt will appear to all thinking Men the more unreaſonable, after the ample Security which I offered to the laſt Aſſembly, againſt all Miſapplications, which Offer, I now renew to you, as it ſtands in the Journals of your Houſe, and to them I refer you.

Laſtly, Her Majeſty being the ſole and undoubted Judge of the Services and Rewards of her Servants in the Government, it will be as vain, as it will be diſreſpectful for you (by making yourſelves the Judges) to endeavour to take that Right from her.

Having told you what I cannot do, I ſhall now acquaint you, what I will readily and willingly do. I ſhall give my Aſſent to all ſuch Laws, as ſhall be preſented to me, for the Eaſe, Quiet and Advantage of this Colony in general, or any of her Majeſty's good Subjects in it in particular; *Provided*, they do not claſh with her Majeſty's Rights, Prerogative or Inſtructions, and that they accompany the Bill for Support of her Majeſty's Government. For without that, it will be but Time miſſpent to prepare any, except ſuch as are of immediate and abſolute Neceſſity, for I am firmly reſolved to reſerve theſe Favours, for that Aſſembly that ſhall firſt make that dutiful and grateful Return, to her Majeſty for her royal Care, and her ſo often repeated acts of Grace and Bounty, which ſhe moſt aſſuredly expects from you.

And now, Gentlemen, in order to prevent a World of Troubles and needleſs Debates, I ſhall take Leave to propoſe one leading Queſtion to you. Are you reſolved to ſubmit to ſuch Rules of Government, as are preſcribed in her Majeſty's Letters Patent and Inſtructions?

For preventing of groundleſs Diſputes and Miſunderſtandings between you and her Majeſty's Council, give me Leave to adviſe a Remedy, which is practiſed with Succeſs in other Provinces, that is, That you would be pleaſed to meet with them, as frequently as conveniently may be, to conſult and mutually adviſe, what may be judged neceſſary in the framing of all Bills, which will prevent the Neceſſity of Amendments, and conſequently all Diſputes, relating to the Right of making them.

Thus having acquainted you with what Things I cannot do, and what I am willing to do, I ſhall not doubt, but that you will readily do what is incumbent upon you; eſpecially conſidering the Dangers of Delays, of which you may be well convinced by the Letters of the Lords Commiſſioners of Trade and Plantations to me, by their Order communicated to the laſt Aſſembly, inſerted in their Journals, and to which I refer you.

You have ſtill a fair Opportunity to avert the Conſequences which threaten you; I hope you will lay hold of it. As for my own Part, having done my Duty, and nothing without the Bounds of my Duty, I waſh my Hands of them, and leave them at the Door of thoſe, who with both their Hands have drawn them down.

When you have under your Conſideration (as it is impoſſible you ſhould not) the crying Debts of the Government, I muſt earneſtly recommend to you, That to the Lady *Lovelace*, which by her Majeſty's Letter to me (which you alſo have in your Journals) you'll find ſhe has very much at Heart.

Robert Hunter.

Die Mercurij, 9 *ho. A. M. May* 4, 1715.

HIS Excellency's Speech being read, is as followeth, *viz.*

Gentlemen,

I Have waited with ſome Impatience for this Meeting, where the Country might have an Opportunity of making an humble Tender of their Duty to his Majeſty, and expreſs in Words the Joy of their Hearts for his happy and peaceable Acceſſion to the Crown, by you their Repreſentatives.

It would be a Crime to entertain the leaſt Suſpicion that a People who ſhare in this general, but unſpeakable Bleſſing, of having all that is dear, religious or civil, firmly ſecur'd to them, at a Time when both, by the Arts of ill Men, were brought into the utmoſt Danger; ſhould, upon this Occaſion, be wanting in the leaſt Reſpect, to their own true Intereſts, in grateful Returns to Almighty Providence, or Duty to their great Deliverer.

I think it neceſſary to acquaint you, that his Majeſty has been graciouſly pleaſed to order my Commiſſions for the Governments of theſe Provinces, to be renewed, notwithſtanding the malicious and unjuſt Accuſations of ſome Men, altogether Strangers to me and my Conduct. The ſofteſt Terms they have given to my Adminiſtration, is, Arbitrary, Illegal, Grievous, Oppreſſive, Unjuſt and Deſtructive. *Were there any Colour for this, I pronounce myſelf not only unfit to govern, but unworthy to live; and though God and my Conſcience acquit me of that foul Charge, yet could I be perſuaded that any Part could gain Credit in the Minds of Men, I would make it my moſt humble requeſt to his Majeſty to remove me; thoroughly convinced, that the beſt guarded Conduct, and moſt innocent Life, are not Proof againſt the Malice of ſelfiſh and deſigning Men; and ſomething I have preſerved, which I value more than Life, and would not willingly loſe it.*

I am further to acquaint you, that the Earl of Clarendon, *thought fit to enter a Caveat againſt the paſſing the Act, for Payment of the public Debts here; what his Reaſons are, or what Effect they may have, I know not; I ſhall only ſay, that in my Opinion, he, of all Men, ought to have been ſilent in this Caſe. But I cannot think that we can be ſo, without Breach of the Truſt repoſed in us, and involving ourſelves in the Guilt of the Sufferings of ſo many Hundreds of Perſons and Families, whoſe very Being depends upon the paſſing of that Act. So I hope you will, in Conjunction with the Council, find out ſome ſpeedy and effectual Expedient for removing that Obſtacle, or any other that may be offered of the like Nature. And I cannot but think it abſolutely neceſſary, that ſome Perſon or Perſons, ſufficiently qualified, and amply inſtructed by the whole Legiſlature, be immediately ſent to Court for that Purpoſe.*

You are not ignorant that the Duties impoſed for the Support of Government for this laſt Year, are upon the Point of expiring; but perhaps you do not know that theſe Duties fall much ſhort of the Sum aſſigned for that Uſe by the then General Aſſembly; the Receiver General's Accounts, Receipts and Iſſues, will make that plain to you; and indeed the Sum itſelf is ſo Scanty, that not only Officers are cramp't in their Salaries, but many neceſſary publick Services poſtponed or neglected, for Want of Funds to anſwer the Charges. I firmly perſuade myſelf, that you are now met with good and firm Inclinations and Reſolutions to remedy that Inconveniency amongſt others, ſo prejudicial to your own Safety, as well as the Dignity of his Majeſty's Government.

As for my own Part, I declare that they abuſe you who go about to perſuade you that I have ever had, or propoſed to myſelf any Intereſts ſeperate from yours, which I take to be very far from being incompatable with thoſe of the Crown. And as I think hitherto no Man can with Juſtice accuſe me either of Miſapplications, or bad Oeconomy, I ſubmit myſelf in theſe Reſpects now, and at all Times hereafter, to your own niceſt Scrutiny.

ROBERT HUNTER.

A Meſſage from his Excellency, to command the Attendance of this Houſe, immediately at the Fort, and they attended accordingly; where they took the Oaths and ſigned the Teſt and Aſſociation according to Law. Then his Excellency directed them to chuſe their Speaker; they returned, and unanimouſly choſe Mr. *William Nicoll* their Speaker, whom they preſented to his Excellency, and was approved; and afterwards Mr. Speaker demanded their ancient Rights and Privileges, which were granted. Then his Excellency was pleaſed to make a Speech; the Houſe being returned, the Speaker aſſumed the Chair, and acquainted the Houſe, his Excellency had made a Speech; which he had obtained a Copy of, and was read, being as followeth, *viz.*

Gentlemen,

WERE *there no other Reaſon for our Meeting at this Time, than that we may together rejoice for the Succeſs, with which it has pleaſed the Almighty, to bleſs his Majeſty's Councils and Arms, over the crafty Devices of his natural Enemies, and the deſperate Attempts of his unnatural Subjects; I think that is ſufficient, for, is there a Man, who has the leaſt Concern for human Nature itſelf, who is not filled with Joy, to find the eſſential Difference, betwixt that and the ſubordinate Species of Animals reſixed and maintained, which muſt have been entirely cancelled by that ſort of Power, which alone could have given a Succeſs to, and have ſupported the Cauſe of a* Popiſh *Pretender. For my own Part, I have ever thought that a Man and his Beaſt, at beſt, equal ſhares in the Benefits of ſuch a Government. I know, I ſpeak it to a Set of Men who join with me in theſe Thoughts, and to do Juſtice to thoſe whom you repreſent, I firmly believe that his Majeſty, in the wide Extent of his Dominions, has not a Province, where fewer look a Squint on his rightful Title and righteous Cauſe, for I think, not one have ventured to ſpeak.*

I would not have you Miſconſtrue what I am about to ſay, as if I were ſounding an Alarm, in the Middle of a profound Peace; far be that Thought from me. Your future Security is all my Aim. The late inſidious Treaties of Peace and Commerce (the beſt Authority on Earth has called them ſo) had left it too much in the Power of thoſe, whom I can hardly forbear, to call ſtill

our Enemies, to annoy us on this Side, when they ſhall find themſelves inclined to interpret thoſe Treaties, in favour of a groundleſs Rupture; the vaſt Preparations in France, *for Settlements behind you along the* Miſſiſippi, *with the Neighbourhood of a very conſiderable Garriſon and Seaport at* Cape Breton, *as they may let you into ſome of their Views in making that Peace (for it was they that made it) ſo they juſtify my Apprehenſions, and I hope, will be ſufficient to induce you, to put yourſelves into a better State of Defence, againſt the evil Day to come. The Strength of this Fort, is very little proportioned to its Uſe, which I take to be not only the Security of this Province, but in a great Meaſure, that of the Continent. The Fort at* Albany, *is next to none at all, and will ſignify little againſt any, but* Indian *Enemies, and upon that you well know, depends entirely the Safety of your Frontiers and remote Settlements. I have not been wanting in due Repreſentations elſewhere of this Matter, and have Accounts, that the Lords of Trade, have been pleaſed to ſecond them, with their Advice to his Majeſty, for an Augmentation of the Troops here, of which I hope, we ſhall ſpeedily have a favourable Account; I hope you will not be wanting in your Part, now that the burthenſome Expence of the fruitleſs Expedition, is in a great Meaſure over, and the Subject here is leſs loaded with publick Taxes, than any of their Neighbours; I ſhall be ready to confer with, and adviſe you about what is neceſſary to be done in that Matter.*

A former Aſſembly merited and received the Bleſſings of many ſuffering Families by the publick Debts; if by Omiſſion, Neglect or otherwiſe, any juſt Claimants have been diſappointed, I hope you'll ſhare theſe Bleſſings, in providing for the Satisfaction of all ſuch juſt Claims.

I have detained you too long, what beſides may occur to me, which ought to fall under your Deliberations, I ſhall communicate to you hereafter. I need not tell you, that the Seaſon of the Year requires diſpatch.

R. HUNTER.

Die Veneris, 9 ho. A. M. Oct. 4, 1717.

THE engroſſed Addreſs of this Houſe to his Excellency, was preſented to this Houſe, and read, being as follows.

To his Excellency Brigadier *HUNTER*, Captain General and Governor in Chief in and over the Colonies of *New-York*, and *New-Jerſey*, and Vice Admiral of the ſame in *America*.

The humble Addreſs of the General Aſſembly of his Majeſty's Colony of *New-York*.

May it pleaſe your Excellency,

WE *have had under our Conſideration, the Paper, entitled*, A Memorial of ſeveral Aggrievances and Oppreſſions of his Majeſty's Subjects in the Colony of *New-York*, in *America*; *ſent us by your Excellency: And think ourſelves bound in Duty and Conſcience to declare, that we are utterly Strangers at preſent, to Grievances and Oppreſſions; which if there were, we, of all Men, are under the greateſt Tye and Obligation to remonſtrate the ſame to you. There is no Money raiſed, or Tax impos'd on the People in this Colony, but by their own Conſent in General Aſſembly, which is chearfully given by a dutiful People, towards the Support of his moſt Sacred Majeſty's Government over us; and which hath been duly and faithfully applied to the Uſes intended and accounted for, to the Satisfaction of the General Aſſemblies during the Time of your Excellency's Adminiſtration; ſo that you cannot, with the leaſt Appearance of Truth, be charged with the Miſapplication of the public Money, or that in the Adminiſtration of the Government, you have, in any Inſtance, ſtretched your Power beyond it's juſt Limits. The Proſecution of Capt.* Mulford, *was not for his endeavouring to have Juſtice or Right done, or ſpeaking for the Property or Liberty of the Subject, as repreſented by the Memorialiſt, but for writing, printing and publiſhing a ſcandalous Libel againſt the Government of this Colony, to prevent the raiſing any Support for it: He had firſt attempted it by Way of Speech in the General Aſſembly, of which he was then a Member, and was heard with Impunity; but when he ventured to print and publiſh what he there had ſaid, he was expelled, as he juſtly deſerved. The Memorialiſt (if he be not the ſame Perſon) we believe, received the Accounts he gives, from him, who, tho' one of the Aſſembly of this Colony, is very much a Stranger to the Affairs and Intereſt of it, and, to promote his beloved* Connecticut, *an Enemy to it. The being Tributaries to barbarous Heathen, was a Cant very frequent with him while in the Houſe, and uſed by him to hinder the raiſing thoſe neceſſary Supplies the Government wanted to uſe in the* Indian *Affairs; but, we thank God, without any other Effect, than affording the Houſe now and then ſome Diverſion. 'Tis a little odd in a Memorialiſt (who talks ſo warmly for Liberty and Property, and repreſents the Province to be miſerably diſtreſs'd, if not vaſſal'd, by the raiſing of* Thirty Thouſand Pounds, *for a* Canada *Expedition*; Twenty Seven Thouſand Pounds, *for the paying of their Debts*; *and about* Four Thouſand Pounds *a Year to ſupport the Government) to propoſe an Expedition againſt the* Indians, *at the Expence of Half our perſonal Eſtates at once, for the pious Purpoſe of cutting their Throats and poſſeſſing their Lands: And to make this chimerical Project appear practicable, inſtances a* Quebec *Expedition, that brought* 3000 *of them to Temper, with the Loſs of only three Men and two Granado Shells. But wicked and ridiculous as this Memorial is, it may be attended with Effects worthy the Care of a* Britiſh *Miniſtry to prevent; and had it been given ſome Years ſince, when the* French *were our Enemies, in the Manner it now was, to the Members of the Houſe of Commons, it would hardly have failed of bringing an* Indian *War upon all the Colonies of* Engliſh *on the Continent.*

Your Excellency is not ignorant, that by villainous Acts the Indians *are made to believe, that the* Engliſh *on the Continent have agreed to cut them off, and that you are the only Governor that refuſed to join in that execrable Project; that it was with Difficulty they were perſuaded to diſbelieve it (if yet they do ſo): And if this ſilly Memorial ſhould fall into the Hands of the Enemies of the Government, either Foreigners or* Engliſh, *what miſchievous Uſe might not be made of it? The* Indians, *will be told, that ſuch a Propoſal has been made, and to the Members of a* Britiſh *Parliament, and that 'tis under their Conſideration. Your Excellency but too well knows the ill Impreſſions the* Indians *have received, and the Diſpoſition they are in to believe ſuch a Tale, and the ill Conſequences that muſt attend the Belief of it: For our Parts, we think ourſelves bound to declare our Abhorrence and Deteſtation of reducing the* Indians *by Force, and poſſeſſing their Lands, unleſs they firſt make War upon us; for to the Steadineſs of thoſe* Indians *to the Intereſt of* Great-Britain, *it is that we owe, in a great Meaſure, our preſent Security from the Irruptions of the more Barbarous; and whilſt the War with* France *continued, this Colony was not only covered and defended by thoſe* Indians, *but when Expeditions were undertaken againſt the* French *on this Side, we ever found them moſt ready to aſſiſt in them with all their Force. So that beſides the natural Injuſtice of ſuch a vile Attempt, as ſurmis'd in that Paper, if it were practicable, ſuch an Action muſt bear the Brand of the blackeſt Perfidy and Ingratitude. And we hope your Excellency and Council will join with us, in Directions and Inſtructions to the Agent to find out this Offender, and make Application to his Majeſty's Miniſters in order to his being brought to Juſtice.*

Then the Speaker, with the House, waited on his Excellency accordingly; the House being returned, Mr. Speaker assumed the Chair, and informed the House, that his Excellency was pleased to make a Speech; which he had obtained a Copy of, being read, is as follows, *viz.*

Gentlemen,

HAVING *received from the Lords Commissioners for Trade, some Objections against the Acts for settling a Revenue for Support of Government; I judge it absolutely necessary, that you should meet as soon as possible, in Order to provide proper Remedies for such Matters, contained in these Acts, as have in the mean Time obstructed their Lordship's Recommendation of them to his Majesty, for his Approbation, and may if not remedy'd, lay them under the Necessity of laying them before him, for his Disallowance, which as it would be of dangerous Consequence to the Credit and Interest of this Colony, so I am persuaded, it would be no very agreeable Task to their Lordship's, who have its Interest and Prosperity so much at Heart, as it well appears from their own Words, which are these: 'We have considered the 'Revenue Act, and have some Objections to it, particularly it 'affects the Shipping and Navigation of this Kingdom, as you 'will see by the inclosed Paper of Objections; however we 'would not lay it before his Majesty to be repealed, because you 'say, the Repealing it would ruin the Trade of the Province; 'you must therefore move the Assembly, to pass a new Act, not 'liable to the said Objections, otherwise we shall be obliged to 'lay this Act before his Majesty, for his Disallowance, for no 'Acts are to be passed in the Plantations, whereby the Shipping 'and Navigation of this Kingdom are affected, as you will 'see more particularly, by his Majesty's Additional Instructions to 'you, of the 27th of* September *last; we have the like Objections which are also here inclosed to the Act, to oblige all Vessels 'trading to this Colony (except such as are therein excepted) to 'pay a certain Duty, &c. passed in* September 1716, *and for 'the same Reasons, we must desire you to get a new Act passed, 'not liable to the Objections.'*

The Paper containing the Objections, I shall lay before you, and earnestly intreat your immediate Attention, to the Application of proper Remedies; at the same Time, I must put you in Mind, that in the next Year, which is the last of your Revenue Act, it will prove very deficient, as was observed at the Time it passed; so that this may be a very proper Juncture, by a new Act for that Purpose, to remove all just Objections, guard against that Deficiency, and to make further Provision for the Support of his Majesty's Government here.

The Season of the Year calls for Dispatch, and the Case cannot admit of Delay, and I cannot easily persuade myself, that an Assembly, which has all along had, and has given conspicuous Marks, of a hearty Zeal for his Majesty, and sincere Regard to his Service, and has given such kind repeated Proofs of their intire Satisfaction with my Administration, will hesitate in what is now recommended to them, which so nearly concerns the Interest of those whom you represent, as well as that of the Government.

ROBERT HUNTER.

Reſolved, That Mr. Speaker, do carry the Bill to the Council, and deſire their Concurrence thereto, and that the whole Houſe do attend the Speaker at the ſame Time, with the engroſſed humble Repreſentation of the General Aſſembly of his Majeſty's Colony of *New-York*, to his Excellency; which was

read, being ſigned by Mr. Speaker, and all the Members preſent, and is as follows, *viz.*

To his Excellency Robert Hunter, *Eſq; Captain General and Governor in Cheif of the Provinces of* New-York *and* New-Jerſey, *and Territories thereon depending in* America, *and Vice Admiral of the ſame,* &c.

The humble Repreſentation of the General Aſſembly of his Majeſty's Colony of New-York.

May it pleaſe your Excellency,

AS the Obſerves you made to the Right Honourable the Lords Commiſſioners for Trade and Plantations, on the Conſequences that would attend the Repeal of the Act, *for a Supply to be granted to his Majeſty, for the Support of Government here,* were very juſt; ſo we pray, that you would return that Board, the Thanks of this Houſe, for the Regard they were pleaſed to pay to your Sentiments, and to aſſure them, that though poſſibly we may make Acts here, liable to their Cenſure; yet they are not made ſo, with any ill Deſign of hurting the Trade and Navigation of *Great Britain*; and that in particular, the two Acts, to which their Lordſhips have been pleaſed to make Objections, were by us intended for the ample Support of his Majeſty's Government here, and contrived (as we then thought) in ſuch a Manner, as would be moſt effectual for that Purpoſe, with moſt Eaſe to his Majeſty's Subjects, and to make thoſe of them, who received an Advantage by our Trade, contribute their Mite to the Support of that Government, which protected them and us in it. As all the Payments made for the Tonnage of *Britiſh* Veſſels, has amounted to but little above *Two Hundred Pounds* this Money, ſince the Act laying that Duty was paſſed, which is now above two Years; ſo the ill Effects of ſo ſmall a Sum, will not, we preſume, be conſidered with Reſpect to the *Britiſh* Trade, and we humbly hope, that when their Lordſhips are informed, that *Britiſh* Veſſels, as well as others, paid a Duty of Tonnage, by Virtue of an Act of General Aſſembly of this Province, made in the Year 1709, which continued to be paid without any Objection or Obſerve made on that Act, by the then Board of Trade: That the Inſtruction their Lordſhips mention, was not communicated till long after the Act they object againſt, was paſſed; That in *Virginia*, they pay ſuch a Duty, and that *Britiſh* ſhipping in moſt of the Plantations, are no more than others exempted, from paying a Duty according to their Tonnage for Powder Money; they will think favourably of us, for ſubjecting them to the ſame Duty, as their Fellow Subjects paid for the Support of his Majeſty's Government, which we were humbly of Opinion, would as well juſtify ſuch an Impoſition, as the Support of his Majeſty's Garriſons and Fortifications. We were not without Views of encouraging the Building of Shipping in this Colony, by exempting the Veſſels built here from that Duty and his Majeſty's Subjects in this Colony, trading in Ships built any where elſe, were as liable to that Duty as others, and as they have freed themſelves from it, by complying with the Intention of that Act, ſo if we are rightly informed, the trueſt and moſt advantageous Way for the Subjects of *Britain*, who are inclined to be concerned in our Trade, to obviate that Part of their Lordſhips Objections againſt the Act, is to anſwer the Ends of it. But this Hint, we ſubmit to be improved by Men of their Lordſhips great Wiſdom and Penetration. And in the mean Time have paſſed an Act, not liable to that Objection, nor to that of *Negroes* imported directly from *Africa* in Veſſels owned by Inhabitans of *Britain*, but we humbly hope their Lordſhips will not think it inconſiſtent with the Intereſt of *Britain*, to indulge us in continuing a difference of the Duty between Veſſels built in this Colony, and thoſe owned by Inhabitants of the neighbouring Plantations, and built elſewhere; and alſo a Difference betwixt the Duty of *Negroes*, brought directly from *Africa*, and thoſe brought from the Plantations; becauſe it will encourage a direct Importation from *Africa*, and diſcourage an Importation from the Plantations, by whom we are ſupplied with the Refuſe of their *Negroes* and ſuch Malefactors, as would have ſuffered Death in the Places from whence they came, had not the Avarice of their Owners, ſaved them from the publick Juſtice by an early Tranſportation into theſe Parts, where they not often fail of repeating their Crimes. We ſhall not enlarge on this Head, conceiving theſe and many more Reaſons will be obvious to their Lordſhips, and forceable enough to induce them to comply with our Deſire; and we become humble Supplicants to your Excellency, that while we have the Honour and Advantage of your Continuance in the Station you are at preſent in, that you will uſe your Endeavour to diſpoſe that Right Honourable Board, to continue ſo far their Favours, to a Province not inconſiderable in the Plantations, nor diſaffected to the preſent Government, as to lay no Acts made here, before his Majeſty for his Diſallowance, till they have ſignified their Objections to your Excellency, as they now have done, that we may model them according to their Lordſhips Deſire, or give ſuch Reaſons as they ſhall think ſufficient for his Majeſty's Approbation of them. And we perſuade ourſelves, your Excellency can ſet the Reaſonableneſs of this Deſire, in ſo clear a Light to their Lordſhips, that they will be induced to think

think it will be no Diſervice to his Majeſty, nor inconſiſtent with the Intereſt of *Britain* to grant.

Before we enter into any Remarks on their Lordſhips Objections or rather Obſervations, on the Act, *for Support of his Majeſty's Government here*, we beg your Excellency to call to Mind, the Circumſtances of this Colony at the Time of paſſing this Act, both with Reſpect to the Inhabitants themſelves and to the Government of it, which we preſume, if ſet in its natural Light before their Lordſhips, and duly conſidered, they will be of Opinion, that the raiſing ſo ample a Support for his Majeſty's Government here, and in the Manner it was then done, was not only a Compliance with our Duty, but a more than common Inſtance of our Affection to it, and the Perſon by his Majeſty placed over it, to whoſe good Addreſs and Managment, it was not a little owing.

The Province laid then under the Burden of a Land Tax, for two fruitleſs (if not whimſical) Expeditions to *Canada*; and what Support the Government then had, was raiſed that Way, which though very far ſhort of what your Excellency deemed neceſſary, yet was an Addition to that Burden, and made the raiſing of it difficult, occaſioned by the Poverty of the People. What was called a Revenue, *viz.* A Tax on Trade, for the Support of the Government was expired; the imprudent Management, and the extravagant Miſapplication of that Revenue by former Governors, had created a Debt of about *Forty Thouſand Pounds*, which with the Arts uſed by many, who tho t it their Intereſt to defeat any Act, that ſhould lay any Tax on Trade, had created ſuch an Averſion in the People, either to the paying of thoſe Debts, or to the raiſing any Support for the Government that Way, which indeed was the only Way that it could be done to any tolerable Effect, that both the one and the other was almoſt deſpaired of. As for the Payment of the publick Debts, though often recommended by the Earl of *Clarendon* and your Excellency, and at laſt happily effected; yet the Bulk of them was known to be occaſioned, by the Miſapplication of the publick Money and the Senſe of the Colony, was fully expreſſed to my Lord *Cornbury*, by the Aſſembly of that Time, in theſe Words :----- "Since the Peace, this Colony has raiſed above *Twenty Two Thouſand Pounds*, in publick Money, a great Part of which has been laviſhed ſo profuſedly, and applied contrary to the Ends for which it was given, and againſt the expreſs Letter, of both the Letters Patents and Inſtructions to the late Governor, that it muſt be no Wonder if the People (were they able) ſhould be averſe to giving, having freſh before their Eyes, ſuch apparent Examples of the unjuſt and unaccountable Diſpoſition of their Money."

His Lordſhip's Conduct during his Adminiſtration, gave but too much Reaſon for the Reflection; and by the like Methods added to thoſe Debts; by thoſe Means, the public Credit was brought to the loweſt Ebb; Numbers of People was complaining with Warrants on the Government in their Hands, which could not be paid, and Perſons of all Ranks were Sufferers for want of that Money which the Aſſemblies of this Colony had provided, and would have ſufficiently prevented moſt of thoſe Demands, were it not for the groſs Miſapplication of it; this the Aſſembly were not inſenſible of at the Time of paying thoſe Debts, as may appear by the Preamble of the Bill that paid Part of them: However, to reſtore the public Credit, and add new Vigour to a then languiſhing Trade, we paid Part of thoſe Debts, and ſtruck Bills of Credit to the Value of *Twenty Seven Thouſand Six Hundred and Eighty Pounds*, for that Purpoſe, and have ſince paid the Remainder, amounting to about *Sixteen Thouſand Pounds* more, for which Bills of Credit are alſo ſtruck.

The great Increaſe of the Trade and Oppulency of this Province, has been an Effect ſo viſible of this Proceeding, that we are ſure your Excellency has not failed of obſerving it.

The great Averſion of the People in general to lay a Tax upon Trade for the Support of the Government, (though now for the moſt Part remov'd) you cannot be a Stranger to, nor with the Difficulties that were overcome to obtain the preſent Settlement; the laſt of which we recommend to your Excellency to repreſent to their Lordſhips, in ſuch Manner as you think will moſt conduce to the Benefit of this Province; and the firſt we think cannot be ſet in a clearer Light, than by a Reſolve of the General Aſſembly of this Colony, made in the Time of the Right Hon. the Earl of *Clarendon*, then Lord *Cornbury*, before the Revenue expired, in theſe Words: "*Die "Sabatii, September* 11, 1708. *Reſolved, "That the raiſing of Money for a Support of "the Government, or other neceſſary Charge, "by any Tax, impoſt or Burden on Goods im- "ported or exported, or any Clog or Hindrance "on Traffic or Commerce, is found by Expe- "rience to be the Expulſion of many, and the "impoveriſhing of the Reſt of the Planters, "Freeholders and Inhabitants of this Colony, "and of moſt pernicious Conſequence, which if "continued, will unavoidably prove the Ruin "of the Colony.*"

Though we believe, as our Conduct has ſhewn, and Experience proves, that the Gentlemen were miſtaken in their Sentiments on this Head, yet they ſpoke the Senſe of the Colony they at that Time repreſented, and which

which continued to be the Opinion of no ſmall Part of it at the Time this Act was paſſed; ſo that it was very far from an eaſy Taſk to prevail on a People, upon whoſe Minds the Malverſations of a late Adminiſtration had made ſo deep an Impreſſion, to enter into thoſe Meaſures that they believed the Source of them; and once more to put it into the Power of a Governor to add to the Miſchiefs his Predeceſſor had done. However, the Experience they had of your Prudence and Juſtice, made them venture, and the Government wanting a Support, Affection, and a Senſe of Duty, prevailed, which gave riſe to the Act now objected againſt by their Lordſhips. And becauſe (as the Act ſays) the *Indian* Nations were very much wavering in their Faith and Allegiance to the Crown, his Majeſty's Forts and Fortifications in this Province very much gone to decay, and the Neceſſities of the Government in many Caſes ſuch, as did demand a more ſpeedy Supply than could from Time to Time come in by the Duties given by this Act; therefore Bills of Credit was ſtruck to anſwer theſe then preſent and preſſing Neceſſities, to the Value of *Six Thouſand Pounds.*

Now, we humbly repreſent to your Excellency, (and which we hope will have it's proper Regard at their Lordſhips Board) that theſe Expeditions were entered into, theſe Debts paid, this Government ſupported by us at the preſſing Inſtances of our Superiors; that it was the King's Governors, in their publick Capacity, that contracted theſe Debts; that it is the King's Government we ſupport; that upon the Bills of Credit ſtruck to anſwer theſe Ends, the Trade, the Well-being and Credit of this Province now depends; that if any Act be repealed, which will affect theſe Bills (as the Repeal of this will) the Credit of the Whole will ſink, and the Trade immediately ſtagnate, which will prove of much more dangerous Conſequence to the Trade and Intereſt of *Britain*, than a trivial and inconſiderable Duty of Tonnage, paid by but a few Veſſels, can affect their Navigation; and which, by the Way, is avoided in this Act as it now ſtands; that the Debts will return, and the Number of Sufferers be greater, and what is worſe, remedileſs; and laſtly, as the Expeditions, and all abovementioned have been Inſtances, that there may be ſometimes a Neceſſity to engage the Credit of this Colony, it will render every Thing of that Kind impracticable for the future; which is a Conſequence ſo fatal to his Majeſty's Service, that we are ſure their Lordſhips will, if poſſible, avoid.

As to the Obſervations their Lordſhips have made on this Act, we ſhall now ſpeak to them, and we hope to your Excellency's and their Lordſhips Satisfaction.

An Act, *for a Supply to be granted to his Majeſty, for the ſupporting his Government in the Province of* New-York, *and for ſtriking Bills of Credit for that Purpoſe*; paſſed in *July*, 1715, will expire in *July*, 1720;

Lays Duties,

For every Pipe of Wine imported directly from the Place of it's Growth, Seven Ounces and an Half of Plate; from any other Place than that of it's Growth, Fifteen Ounces.

There are no Wines imported from *Great-Britain*, that we know of, and will join with their Lordſhips in Opinion, that there ought not to be a greater Duty on Wines ſo imported, than on thoſe imported from the Place of its Growth; it was purely an Omiſſion, and done without Deſign.

Query. If any Wines are imported from *Great-Britain*, and if they are liable to the Duty of 15 Ounces, which ought not to be?

Such Importation not having been, but becauſe 'tis poſſible it may be, we have rectified that Miſtake, and put them on the ſame Foot with Wines directly imported.

For all *European* Goods imported from *Boſton*, for every £. 100 Value prime Coſt, 12 Ounces.

Ditto, imported from any other of his Majeſty's Plantations, 18 Ounces and three Quarters of Plate.

The laying a different Duty on *European* Goods imported from the Plantations, from what was paid for Goods directly imported from *Britain*, was firſt recommended to the General Aſſembly of this Colony, in a Speech made to them the 14th of *June*, 1705, by his then Excellency the Lord *Cornbury*; and the Thing in itſelf we take to be reaſonable, becauſe it encourages a direct Importation from *Britain*, by which we are ſupplied with good Commodities, inſtead of bad, from the Plantations; and are humbly of Opinion, it is of Advantage to the *Britiſh* Exportation, and a ſmall Means of encreaſing their Navigation, as well as a Benefit to ourſelves, we being uſually ſupplied from the Plantations, eſpecially the *Weſt-India* Iſlands, with the Refuſe of their Shops and Ware-Houſes, and ſuch, as for the moſt Part, were rotten or damnified with long lying.

N. B.

N. B. As no Mention is made of any Duty on *European* Goods imported directly from *Great-Britain*: *Query*, What Duty do they pay?

N. B. Because no Mention is made of any Duty on *European* Goods directly imported; therefore answer, They pay none. But perhaps their Lordships might suppose they paid a Duty by Virtue of some other Act, and desired to know; your Excellency can easily inform them, there is no Duty laid on them by any Act now in Force, or that has been in Force since the Revenue expired.

But we beg Leave to inform your Excellency, that they formerly paid a Duty of Two and an Half *per Cent.* towards the Support of the Government, which continued a long Time; and since there will be a Deficiency in the last Year of this Act, and their Lordships Objections against the Tonnage of *British* Vessels, will make a further Deficiency, we presume their Lordships cannot be displeased if we revive that Duty to make up that Defect, the Trade of this Province being mostly carried on at the Risque of the Inhabitants of it. Such a Duty will be a Tax only on ourselves; and if any *British* Merchants think it worth their while to adventure any Part of their Stocks in this Trade, it is, as we humbly conceive, not unreasonable they be subjected to the same Duty the Inhabitants are under, in the Case of *European* Goods as well as Wine, imported by them, which their Lordships does not seem to disapprove of, and is paid by the Purchasers of those Commodities, which are the Inhabitants of this Colony.

What relates to the Importation of *Negroes*, is already spoke to; and upon the Whole, we beg your Excellency would assure their Lordships, that as we always have, so we shall be very willing to give a Support for his Majesty's Government here, and, if we can, in such a Manner as will be most agreeable to his Majesty, and most for the Ease of his Subjects; and that at this Time it cannot be effectually done, without an Impost on the Importations or Exportations of this Province.

We are his Majesty's loyal Subjects, and your Excellency's humble Servants.

A Message from the Council, by Col. *Beekman*, that they have agreed to the Bill, entitled, *An* Act, *for reviving an Act of general Assembly*, entitled, *An* Act, *for the easier Partition of Lands in joint Tenancy, or in Common; and making the same more useful and effectual for the Purposes therein mentioned*; without any Amendment.

Then the Speaker with the House, waited on his Excellency, and presented the engrossed Bill, entitled, *An* Act, *for the explaining of certain Clauses in an Act of General Assembly, of this Colony*, entitled, *An* Act, *for a Supply to be granted to his Majesty, for supporting his Majesty's Government in the Province of* New-York, *and for striking Bills of Credit for that Purpose, passed in the Year* 1715, *and for explaining certain Clauses in an Act of the General Assembly of this Colony, made in the Year* 1716, entitled, *An* Act, *to oblige all Vessels trading into this Colony (except such as are therein excepted) to pay a certain Duty*, &c.

MR. *Alexander* the Deputy Secretary attending without, being called in; acquainted Mr. Speaker, his Excellency was indiſpoſed, and had therefore commanded him to deliver his Speech in writing, which was read; and is as followeth, *viz.*

Gentlemen,

MY preſent State of Health, obliges me to ſend in Writing, what I had to recommend to you at the Opening of this Seſſion To-day.

I was ſolicitous, that you ſhould meet at this Time, that we might be in a Readineſs to put in Execution ſuch Orders, as his Majeſty might think neceſſary to ſend us, in Relation to the juſt and neceſſary War, he has declared againſt *Spain*. The Ship which probably brings theſe Orders, is not yet arrived, but hourly expected. The News you have had, of that Enemy's deſigned Attempt upon the Kingdom of *Ireland*, will eaſily perſuade you, that how impoſſible ſo ever an Enterprize of the like Nature upon theſe Parts may appear to be, it is not impoſſible, eſpecially conſidering the daily Reports of their equipping of Ships of War in their *American* Ports. Fury and Reſentment may carry them thither, where they think they may do the greateſt and cheapeſt Damage. I look upon the Militia with the regular Force we have, to be a ſufficient Guard to the Province; but I think, that for the better Defence of this City, there is a Neceſſity of renewing and repairing the two Batteries at the Entrance of this Haven, which are entirely ruined by the Injuries of Time and Tempeſts; for that Purpoſe, I deſire you would prepare a Bill for the defraying that Expence, and if you think fit, in the mean Time, to paſs a Vote of Credit for that Uſe, I ſhall ſet to Work immediately that no Time may be loſt.

In the next Place, it will be neceſſary that you inform yourſelves, from your Treaſurer and the other Officers, of the preſent State of the Revenue, that you may in Time provide for the Deficiency in theſe Funds, in this enſuing laſt Year of their Date, which was foreſeen, and I doubt you'll find to be conſiderable, as well as the Ways and Means, for the future Support of his Majeſty's Government here, towards which you have ever ſhewn the warmeſt Zeal and Affection.

The late Attempt of ſome wicked Men, to counterfeit your Bills of Credit, I hope is in a great Meaſure diſappointed, by the early Diſcovery and the Flight of the Perſons guilty in all Appearance, for the finding and ſecuring of whom, I have uſed all poſſible Diligence. I ſubmit it to you, whether it may not be neceſſary to paſs a Law, forbidding the Currency of all Bills above a certain Value, which ſhall be paſted on the Backſide, after a certain Time fixed, by which Time the Treaſurer may change true Bills, ſo paſted with others which he is to ſink; for this Counterfeit is concealed

concealed by the Means of ſuch Paſting, as theſe falſe Bills will convince you.

You know that the Time approaches, when your Country Affairs will rèquire your Receſs, that will induce you to give all due Diſpatch to Buſineſs before you. I ſhall acquaint you from Time to Time, with what occurs to me, which may be neceſſary for your Conſideration.

R. HUNTER.

We thank you for your kind Expreſſions to us, and will make it our Study, always to deſerve your Eſteem and his Majeſty's favourable Opinion; and notwithſtanding the Attempts, we are informed have been made by ſome Perſons, Strangers to us and our Affairs, to give his Majeſty and our Superiors, different Sentiments of an Aſſembly, who we perſuade ourſelves, you believe we have given manifeſt Proofs of their Duty and Affection.

The Petitions and Memorials they made to traduce us, we are told, have been tranſmitted to your Excellency, which we pray you would Order to be laid before us, that we may have the Opportunity of vindicating our Innocency.

I take this Opportunity, alſo to acquaint you, that my late uncertain State of Health, the Care of my little Family, and my private Affairs on the other Side, have, at laſt, determined me, to make Uſe of that Licenſe of Abſence, which has been ſome Time ago ſo graciouſly granted me; but with a firm Reſolution to return to you again, if it is his Majeſty's Pleaſure that I ſhould do ſo. But if that proves otherwiſe, I aſſure you, that whilſt I live, I ſhall be watchful and induſtrious to promote the Intereſt and Welfare of this Country, of which I think, I am under the ſtrongeſt Obligations, for the Future, to account myſelf a Countryman.

I look with Pleaſure, on the preſent quiet and flouriſhing State of the People here, whilſt I reflect on that, in which I found them at my Arrival. As the very Name of Party or Faction ſeems to be forgot, may it for ever lie buried in Oblivion, and no Strife ever happen among you; but that laudable Emulation who ſhall approve himſelf the moſt zealous Servant and moſt dutiful Subject to the beſt of Princes, and moſt uſeful Member of a well eſtabliſhed and flouriſhing Community; of which, you Gentlemen, have given a happy Example, which, I hope will be followed by future Aſſemblies. SIR,

WHEN we reflect upon your paſt Conduct, your juſt, mild and tender Adminiſtration, it heightens the Concern we have for your Departure, and makes our Grief ſuch, as Words cannot truly expreſs.

You have governed well and wiſely, like a prudent Magiſtrate, like an affectionate Parent, and wherever you go, and to whatever Station the divine Providence ſhall pleaſe to aſſign you, our ſincere Deſires and Prayers for the Happineſs of you and yours, ſhall always attend you.

We have ſeen many Governors, and may ſee more; and as none of thoſe, who had the Honour to ſerve in your Station, were ever ſo juſtly fixt in the Affections of the Governed, ſo thoſe to come will acquire no mean Reputation, when it can be truly ſaid of them, their Conduct has been like yours.

We thankfully accept the Honour you do us, in calling yourſelf our Countryman; give us Leave then, to deſire, that you will not forget, this is your Country, and (if you can) make haſte to return to it.

But if the Service of our Sovereign will not admit of what we ſo earneſtly Deſire, and his Commands, deny us that Happineſs, permit us to Addreſs you, as our Friend, and give us your Aſſiſtance, when we are oppreſſed with an Adminiſtration the Reverſe of yours.

Then Mr. Speaker left the Chair, and with the Houſe attended accordingly; being returned, Mr Speaker reſumed the

the Chair, and informed the House, his Excellency had made a Speech; which he had obtained a Copy of, and was read, being as followeth, *viz.*

Gentlemen,

I Am fully sensible of my Unfitness to fill the Room of my incomparable Predecessor, and to meet Gentlemen, who have for some Years, been such near Witnesses of his wise and worthy Administration. I could not recover my Uneasiness on this Head, were there not many happy Circumstances to relieve me.

I serve the best Prince that ever was, from whom I may depend on the most gracious Acceptance of my unworthy Services.

I succeed a Gentleman, who left this Province in a flourishing State, and is still ready to take Care of its Interests, which his Majesty's Favour and the general Regard shewn him at Home, will give him great Opportunities of doing, and which in the most affectionate Terms to this People and to myself, he has heartily undertaken.

I meet a Council and Assembly, who concurred with him and assisted in those great Measures, that are now completely confirmed by his Majesty, which have been so effectual to settle the Peace and Publick Credit of this Province, and are so much of the same Nature with the glorious and successful Methods, lately taken by the Legislature of *Great-Britain*, for payment of all the publick Debts, by increasing the Circulation of Paper Credit.

Upon the whole, when I consider the present State of Affairs, and compare it with the distracted and unsettled Posture in which my Predecessor found them; I begin to flatter myself, that my Task will be much easier, and my Assistance much greater from you, than he met with at his first coming.

Gentlemen of the Assembly,

After such Proofs of your Care of Credit and the Support of the Government, I have no room left to doubt, of your finding an immediate and effectual Remedy, for the great Deficiency of the present Revenue.

I leave it to you to judge, if it is not Time, to make a further Provision for the Support of Government, since the present Act will expire in *July* next; and this I am commanded by his Majesty, to recommend to your earnest Consideration.

In providing a Revenue for a reasonable Term, you will shew your Opinion of those employed by his Majesty among you; and above all, give the best Proofs of your Thankfulness to his Majesty, for his most gracious Care of your Continuance, by his late Commands, signified by Mr. Secretary *Craggs*, to the President of the Council, That you be not dissolved, nor suffered to dissolve for want of due Prorogation.

I come now to an Affair of the last Importance to yourselves, and the Safety of your Country, and what I thought it my Duty to recommend to your Care, without Loss of Time, the present Condition of the Frontier. I must believe, that while you approve yourselves loyal to his Majesty, and just to one another in paying the publick Debts, you will not neglect that first Principle of Nature, Self-Preservation. It is no less, that comes now before you, than whether you will suffer the Province to lie open to the first Attempts, the *French* shall think fit to make against it? This must be the Case, if we look on patiently, and see them advancing every Day farther into our Country, building trading Houses in the main Passes belonging to it. Seducing Numbers of our *Indians* to live among them; setting others on Expeditions against those who depend on a neighbouring *British* Colony, and spreading false and scandalous Reports among the five Nations, in order to draw them off from their Allegiance, to the Crown of *Great-Britain*.

This is the Substance of our best and freshest Advices from those Parts, and what the most Trusty of our *Indians* have communicated to us, imploring our immediate Help, to prevent their Nations from falling entirely into the Hands of the *French*, of which we know the fatal Consequence. Now if in a Time of profound Peace, we find the *French* are using such Arts, and by their new Settlements on *Missisippi*, give us just Reason to apprehend a dangerous Increase of their Power, can we be so much wanting to ourselves, as to lose a Moment in providing for our own Security? We may yet do what I hope will be effectual, by repairing our Forts, which are now in a total Decay, building new Ones where it shall be found necessary, putting our Militia in the best Condition for Service, using our utmost Endeavours to re-establish our Interest with the *Indians*, and preventing any Trade on this Side, that may be destructive to the Publick.

Thus, without any Imputation of violating the Peace with *France*, on our Part, we may be secure in all Events against a Nation, whose Practices among us have had a constant View to their own Ambition, and our Ruin.

Gentlemen, we live in the happiest of Times; our mother Country, *Great-Britain*, flourishes beyond what was ever known before, in Wealth, Power and Glory: We may ascribe it to a Blessing that attends such national Virtues as publick Spirit and publick Faith, in which she has out-shined all her Neighbours.

The glorious Revolution begun by King *William*, (of immortal Memory) has now, after many Struggles and Dangers, received its finishing Stroke and utmost Perfection, and seems now secured beyond the Reach of any Thing

Thing but Envy. The preſent Age cannot be happier than under a Prince ſo admired and beloved as his Majeſty; nor Poſterity have a fairer Proſpect, than from the next Heir to the Crown, and the whole illuſtrious Line after him.

Theſe Bleſſings reach us, though in a lower and remoter Sphere; and as *Great-Britain* is an Example to other Nations, we have Advantages, that if we improve, will make us a Pattern to other Colonies.

W. Burnet.

May it pleaſe your Excellency,

ALMOST a ten Years Experience of the juſt and ſteady, but mild Adminiſtration of Brigadier *Hunter*, which endeared him to the Generality of his Majeſty's Subjects here, and to all ſuch who eſteemed the late happy Revolution, as an extraordinary Inſtance of the Favour of Heaven to the *Britiſh* Nation and this Province, gave us Reaſon to deſire his Return to this Place.

We thank your Excellency for the juſt Obſerves you have made on his Conduct, and the kind Notice you are pleaſed to make on our Endeavours to ſettle the Peace and publick Credit of this Colony; which we hope, will not fail of having the deſired Succeſs.

However Diſtaſteful our Demeanour may have been to ſome miſtaken (though otherwiſe well meaning Men) yet ſince his Majeſty has been graciouſly pleaſed to approve of it,

it, and think it neceſſary for his Service that we be continued; We have abundant Reaſon to regulate our Conduct in ſuch Manner, that his Majeſty may retain his favourable Sentiments of us.

To anſwer the Expectations his Majeſty and your Excellency have from us; We have reſolved to raiſe an ample and honourable Support for his Majeſty's Governmen there, and to continue the ſame for five Years. And while we have the Honour to continue in this publick Station, our Care ſhall be, that ſuch a Support ſhall never be wanted, and to make up any Deficiency, that by unforeſeen Accidents may happen in it.

Every other Thing, recommended by your Excellency, ſhall be duly conſidered of by us, and ſuch ſuitable Remedy provided, as the Shortneſs of the Time, Nature of the Thing, and Circumſtances of the Province will admit.

We believe, that the Son of that worthy Prelate, ſo eminently Inſtrumental under our glorious Monarch, *William* the Third, in delivering us from arbitrary Power, and its Concomitants, Popery, Superſtition and Slavery, has been educated and poſſeſſes thoſe Principles, that ſo juſtly recommeded his Father to the Councils and Confidence of *Proteſtant* Princes, and ſucceeds our former Governor not only in Power, but Inclinations to do us good.

As we deſire that your Adminiſtration may prove happy to us, eaſy and beneficial to yourſelf, ſo we ſhall contribute our utmoſt Endeavours to make it ſo; and we hope prove Succeſsful, notwithſtanding any Machinations of weak Men, combined to make it otherwiſe.

SIR,

THERE was a Bill brought into our House last *Fall*, entitled, *An* Act, *for making void and cancelling one Warrant, dated in Council the 13th Day of* June 1719; which Bill we have upon the third Reading, rejected, and *Ordered*, That the *Five Hundred* and *Fifty Pounds*, therein mentioned; should be paid by the Treasurer to your Order, and we are very glad of an Opportunity, to testify the great Esteem and Regard we have, and will always preserve for you, and are now well satisfied, that we could not otherwise do Justice, to the Person who has laid us under so many great Obligations of Gratitude.

We are at present destitute of such Person who bears the Character of Agent for our Province, and are well assured of your great Affection, Good Will and Capacity to serve our Interest, but at a great Loss to find out Arguments, to persuade you to accept of so mean a Character, attended with so small a Profit. The small Allowance we are able to give for an Agent, makes us ashamed to offer it to you, and the great Neglect of our Affairs, by every Agent we have employed, makes us fearful of employing any Body else.

We shall only mention, that long Experience of your past Administration of Government, has rendered you to us, to be fittest Person for that Trust. We humbly beg Leave, to put it wholly in your Power, by this our Letter, either to accept thereof your self, or to nominate another to be our Agent. And we do promise the Allowance for that Service, shall not fall short of what has been made to any former Agent. Our sole Dependence is on the Promises you made us, and that innate Goodness you are possest of, which makes us pray, that you would so far Interest your self as you conveniently may, in the Affairs we will recommend to you.

We are with much Sincerity and humble Respect,

Sir,

The engrossed Representation of this House to his Excellency, was presented to the House, and read, and was signed by Mr. Speaker, being as follows, *viz.*

To William Burnet, *Esq; Captain General and Governor in Chief of the Province of* New-York, New-Jersey, *and Territories thereon depending in* America, *and Vice Admiral of the same, &c.*

The humble Representation of the General Assembly of his Majesty's Province of New-York.

IT is with some Concern we appear before you on an Affair, which, we flattered ourselves, had long since been set in so just a Light before her late Majesty and Ministers, by former Assemblies of this Province, as would render any Attempts fruitless to re-lay that Burthen on this Colony, which we thought had been effectually removed by the Direction of our Superiors; and which even the Person himself was said to have been most concerned in the Profit, thought too heavy and unreasonable to impose.

We find by a Letter from the Right Honourable the Commissioners of his Majesty's Treasury, to the Treasurer of this Colony, that those right honourable Persons are of Opinion, that the neglecting or refusing to account with the Auditor General, will be looked upon as a Contempt of his Majesty's Authority.

How far artful Representations from hence hath prevailed, we have but too much Reason to suspect; but we humbly hope, when their Lordships are truly informed how that Matter stands, they will abate of the Severity of their Sentiments, and give such Directions as are suitable to his Majesty's Goodness, and we hope, favourable Inclinations to a People, who, by repeated Instances, have shewn, they have nothing more at Heart than to approve themselves his faithful Subjects.

We are so far from desiring that his Majesty, or his Ministers, should be unacquainted with the State of his Revenue here, that we think

think no one Thing would be of greater Service to this Province, than his Majeſty being truly and thoroughly informed of the Diſpoſition of every Penny of it. Had that been juſtly done by all the Governors of this Province, we have great Reaſon to believe we ſhould not have laboured under that great Load of Debt, which was too manifeſtly owing to the extraordinary Miſapplication and ſquandering of the publick Money; and we are bold to ſay, her late Majeſty's Indulgence in admitting us a Treaſurer of our own, made it practicable to retrieve the public Credit, which muſt otherw ſe have been deſpaired of, unleſs the Crown, by an Exceſs of royal Munificence, had repleniſhed a Treaſury, imprudently emptied by thoſe intruſted with the Management of it.

Among the many Extravagancies of thoſe Times, one was, the allowing a Fee or Salary to the Auditor General, of 5 *per Cent.* upon the whole Amount of his Majeſty's Revenue in this Province. We venture to call this extravagant, firſt, Becauſe ſuch a Salary in this Province was not allowed him by his Majeſty's Commiſſion; ſecondly, Becauſe he himſelf diſapproved of it. That ſuch a Salary never was allowed, or intended by his Majeſty to be allowed him, out of his Revenue in this Province, we humbly conceive, appears by the Commiſſion itſelf; for by that there is only the Salary of *Five Hundred Pounds*, yearly, given as a Reward for the auditing all the Accounts in his Majeſty's Plantations in *America*; which Salary is appointed to be paid out of his Majeſty's Revenues in *Virginia*, *Barbados*, *Leeward Iſlands* and *Jamaica*, *viz.* Out of the Revenue of *Virginia*, *One Hundred Pounds*; *Barbados*, *One Hundred Pounds*; *Leeward Iſlands*, *One Hundred Pounds*, and *Jamaica*, *One Hundred and Fifty Pounds*; and not one Word of any Allowance made him out of his Majeſty's Revenue in *New-York*; and by what Authority he could take to himſelf a twentieth Part of his Majeſty's Revenues here, when his Majeſty had given no ſuch Direction, we are yet to ſeek; we have indeed heard it was taken as a *Quantum Meruit*, but that could not be, for the *Five Hundred Pounds* was what the Crown thought to be a ſufficient Reward for that Service; and we do not find by that Commiſſion, any Authority given to that Officer to proportion what Part of his Majeſty's Revenue ſhall be paid to himſelf out of the Revenue ariſing in the ſeveral Plantations not named in that Commiſſion, that being, in our Opinion, a Power lodged ſolely in the Crown, and not to be done by any Subject whatſoever, without expreſs and particular Directions under the great Seal, for that Purpoſe. It is true, the Diſpoſition of the publick Money here, as we ſuppoſe, was, as in other Places, in the Governor, by and with the Advice and Conſent of the Council; and ſome of thoſe Governors here, depending more on the favour and Intereſt of the then Auditor General, than on their own good Behaviour for their Continuance, might prevail upon a timid, puſilanimous Council to conſent to ſuch a laviſh Diſpoſition of the public Money. This, we ſuppoſe, gave riſe to the demanding of it as a Fee or Perquiſite, tho' we do not find it ever was allowed by the Treaſury, and whether ever it was received by himſelf, there is reaſon to doubt; for in the Obſervations made (as we ſuppoſe) by the then Auditor on the Accounts of *New-York*, 1703, and 1704, among many extravagant Charges taken Notice of in thoſe Accounts, this of the 5 *per Cent.* is one, and 'tis noted by Way of Memorandum, that Mr. *Blathwait*, conceiving his Salary as Auditor and Surveyor General, too large at 5 *per Cent.* upon the ordinary and extraordinary Levies, he is contented with the Sum of *One Hundred and Fifty Pounds*, *Sterling*, *per Ann.* and the Allowance to him and his Deputy to be ſtated, with an Advance of current Money.

Accordingly, it is confeſſed by Mr. *Blathwait's* own Obſervation on the Accounts of this Province, that there was a Charge of 5 *per Cent.* on the extraordinary Levies; it is evident that this was an extraordinary Impoſition, not within the Meaning of the Commiſſion, or Nature of the Thing to be accounted with the Auditor General, and was a Miſtake ſo obvious, that the Lord Treaſurer could not fail of obſerving if the Accounts were ſhewn him in a true Light. There had been from the Year 1691, to the Year 1703, incluſive, extraordinary Levies, to the Value of *Twenty Two Thouſand Six Hundred and Ninety Eight Pounds*, over and above the common annual Revenue; this at 5 *per Cent.* to the Auditor, comes to *One Thouſand One Hundred and Eighty Five Pounds*, which is almoſt *One Hundred Pounds*, *per Ann.* for which he had no Manner of Right or Pretence. But Things of this Kind were eaſily complied with here, by Receivers of the Revenue, entirely at the Governor's Diſpoſal; and it is not unworthy Obſervation, that the Receiver General's Salary, for receiving and paying all this Money, come to about *Two Hundred and Sixty Pounds*, *per Ann.* and the Auditor, for looking over the Accounts, received a Salary not much ſhort, if not, in ſome Years, exceeding *One Hundred and Seventy Five Pounds*. If that Officer had received that Salary from the Date of his Commiſſion till that Time, or from any Years before 1703 (as there is no great Doubt of its being charged in the former Accounts of this Province)

vince) he muſt have known it to have been too large before that Time. All this renders it ſuſpected, either that the Accounts were not tranſmitted to him with that Article, and then 'twas pocketed here, or that he did not ſhew them to the Lord Treaſurer, as fearing his Diſallowance, it being an Act of uncommon Generoſity for a Man to leſſen his own yearly Salary, when he might have kept it; how that Matter was, we don't preſume to determine; but we cannot yet be perſuaded to believe, that when the King thinks *One Hundred and Fifty Pounds, Sterling*, a ſufficient Proportion to be paid to the Auditor General, out of his Revenues in *Barbados*, which we are told amounts to *Sixteen* or *Eighteen Thouſand Pounds*, yearly, that the Lord Treaſurer or Commiſſioners of the Treaſury will be of Opinion, that either 5 *per Cent.* which has amounted to between *Two* or *Three Hundred* a Year, (and if extraordinary Levies were to be accounted for ſome Years paſt, would amount to more than *Six Hundred*) or *One Hundred and Fifty Pounds, Sterling, per Ann.* is a reaſonable Proportion to be deducted out of the Revenue of this Province; which, by all the Methods we have been yet able to take, has not come to above *Four Thouſand Pounds, per Ann.* one Year with another, which makes our Quota to the Auditor, under *Forty Pounds, per Ann.* We are humbly of Opinion, that the Treaſurer's refuſing to account with the Auditor General, (if ſo he did) could not proceed from any Intention of the Treaſurer to hinder his Majeſty, or his Miniſters, from a Knowledge of the Diſpoſal of his Revenue here; he being of the Council, could not be ignorant that no Act could be paſſed here for raiſing or levying of any Money, whereby the ſame ſhould not be made liable to be accounted for to his Majeſty, or his Miniſters. And by your Excellency's Inſtructions, and thoſe given to Brigadier *Hunter*, fair Books of Accounts being to be kept of all Receipts and Payments, and theſe tranſmitted to the Commiſſioners of the Treaſury, or the Lord High Treaſurer for the Time being, or Board of Trade; and the Treaſurer having been always ready and willing to account with the Governor, when and as often as he pleaſed to require him ſo to do; thoſe Accounts, if ſent Home by the Governor according to the Directions given him, neither his Majeſty, or his Miniſters, could be ignorant of the State of the Revenue here; but on the contrary, as certainly informed of it, as if thoſe Accounts were tranſmitted by the Auditor General, and laid before the Commiſſioners of the Treaſury.

We beg your Excellency to be informed, that it was before the Treaſurer received their Lordſhips Order to account, that he refuſed (if ſo he did) to account with the Deputy Auditor; and that as ſoon as their Lordſhips ſignified their Pleaſure, he readily promiſed to pay an Obedience to their Commands; but we humbly hope ſuch accounting (whenever it is) will not load his Majeſty's Revenue here with a Debt of 5 *per Cent.* or *One Hundred and Fifty Pounds, per Ann.* when it appears by the Auditor's Commiſſion, there is no Foundation for the Demands of a Sum ſo diſproportionate to our Circumſtances.

It is equal to the Treaſurer with whom he Accounts; and his Duty to account with ſuch Perſon as his Majeſty will pleaſe to authoriſe for that Purpoſe, and his declining to account with the Deputy Auditor, was becauſe he was apprehenſive of a Charge of 5 *per Cent.* upon the whole Amount of the Revenue, and, perhaps, upon the extraordinary Levies, which would have riſen to ſo great a Sum, as he thought would not be juſtifiable for him to pay, without particular Directions for that Purpoſe from his Superiors, who, he believed, was not informed of that Matter. And we humbly hope, that the Right Honourable the Lords Commiſſioners of the Treaſury, will no longer look upon that as a Contempt of his Majeſty's Authority, which was purely done to prevent what we hope thoſe Right Honourable Perſons will think too great a Deduction from his Revenue.

How hearty and ready this Aſſembly has been to ſupport his Majeſty's Government, is not unknown to your Excellency, nor with what Difficulties Funds are found out for that Purpoſe; there are few Branches of our Impoſts (except *European* Goods) but what are loaded as much as the Trade will bear. And notwithſtanding all the Precautions we have been capable of uſing to prevent a Debt, the Revenue is as yet inſufficient to pay the Officers, and diſcharge the neceſſary Incidents of the Government; what then muſt be the Conſequence, if the dead Weight of 5 *per Cent.* on the whole Revenue for ſeveral Years paſt, be added?

We could heartily wiſh it was in our Power, without ruining the Trade and Inhabitants of this Province, to make his Majeſty's Revenue ample enough not only for the handſome Support of his Government here, but to enable him to extend his royal Bounty to ſuch Perſons as he thought fit Objects of it; but how unable we are to do this, your Excellency too well knows, as we believe you do, that if 5 *per Cent.* or *One Hundred and Fifty Pounds, Sterling*, yearly Arrearages, or even yearly Salary, for the Time to come, be paid, that it will be impoſſible to pay the Officers of the Government their Salaries, which we hope will be ſufficient Reaſon to prevail upon the Right

Honourable the Lord Treaſurer, or Commiſſioners of the Treaſury, to diſallow ſuch a Demand.

Then Mr. Speaker left the Chair, and with the Houſe, waited on his Excellency, and preſented their Repreſentation; who was pleaſed to receive the ſame very kindly.

A Meſſage by the Deputy Secretary,

Mr. Speaker, His Excellency commands the Attendance of this Houſe immediately at the Council Board.

Then Mr. Speaker and the Houſe attended accordingly; and being returned, Mr. Speaker reſumed the Chair, and acquainted the Houſe, his Excellency was pleaſed to make a Speech, which, to prevent Miſtakes, he had obtained a Copy of; being read, is as follows, *viz.*

Gentlemen,

I Have ſo much Reaſon to expect your ready Concurrence in every Thing which is requiſite for the publick Service, that I meet you with a chearful Confidence, and an entire Dependance in your making effectual all your former Reſolutions to that End, and your coming to ſuch new ones as will enable me to carry on thoſe Meaſures on the Frontier of this Province, which I have begun with ſome Succeſs, and which are of the greateſt Moment for your Security.

I have now for a long Time waited for the Confirmation of your Act, for laying 2 per Cent. *on* European *Goods; but I cannot avoid telling you, not only that it is not confirmed, but that by my beſt Advices, it never will; and the Reaſon is not hard to gueſs, when the Legiſlature at Home have paſſed a Law, to give a Premium upon the Exportation of the* Britiſh *Manufactures, it is ſcarce to be expected that the Crown will conſent to a Duty on thoſe very Manufactures, when imported into the Plantations.*

As you were convinced of the Neceſſity of paſſing this Act formerly, I can have no Doubt of your Readineſs to find other Ways to provide for the ſame Purpoſes, in a Manner that will prove real.

There is another Expectation from the Act of the Support of Government, which you will find has not anſwered, and that is, the ſinking of a large Sum of Bills of Credit out of it, which is ſo far from being poſſible, that the Revenue will not anſwer when this Load ſhall be taken off: I depend therefore upon your Care to provide another Way to ſink thoſe Paper Bills.

I muſt take this Occaſion to recommend it to you, to enquire how publick Monies have been managed ſince your laſt Meeting, and whether due Care has been taken to recover all the Arrears due to the Public, and to apply them according to Law; and whether due Obedience has yet been paid to my Orders given in Council to promote that Service.

I Doubt not but you will pay a due Deference to his Majeſty's Commands to me, to take Care that the Revenue be accounted for to his Majeſty's proper Officer, of which I will ſend you a Copy, as I likewiſe will of the Manner in which the ſmall Sum given laſt Year for the Service of the Frontier, has been diſpoſed of, that you may ſee the Frugality with which it has been managed.

The ſame Frugality ſhall be obſerved in the Application of whatever Sums ſhall now be given for the like Services, and for the erecting and maintaining a Magazine for Powder, of which you all know the Neceſſity, for the Safety of this flouriſhing City.

Gentlemen,

I hope a ſincere and diſintereſted Love of our Country, will be our Rule in all our Proceedings; and that all private Views and indirect Meaſures will be diſcountenanced, and particularly that in your providing for the preſſing Occaſions of the Public; you will turn your Thoughts in ſuch a Manner, as will beſt ſuit the Eaſe and general Inclination of the People, and tend to encourage the Induſtry, and multiply the Number of the Inhabitants of this Province.

I ſhall readily join as far as I am able in any Laws which you can think of for the Benefit of this Colony; and ſhall always have the greateſt Satisfaction in my own Mind, and think I do the moſt acceptable Service to my Sovereign, when I promote the Happineſs of the People.

To his Excellency William Burnet, *Eſq; Captain General and Governor in Chief of the Province of* New-York, New-Jerſey, *and Territories depending thereon in* America, *and Vice Admiral of the ſame*, &c.

The humble Addreſs of the General Aſſembly of his Majeſty's Province of New-York, *in* America.

May it pleaſe your Excellency,

WE are ſo thoroughly convinced, from our own Experience, of your Excellency's Endeavours for the publick Welfare, That we think it our Duty to ſupport you in your great and good Deſigns, to the utmoſt of our Power.

We ſhall endeavour to provide for all Deficiencies, that have happened in the Support of this his Majeſty's Government, and make good our former Promiſes.

The Credit of the Province, being eſſential to its Proſperity, we ſhall endeavour to take effectual Meaſures to ſink the Paper Bills, according to our Engagement, without loading the preſent Funds of the Revenue, which we are ſorry to find have not anſwered our Expectations from them.

We will make ſuch Enquiry into the Management of the publick Money, as your Excellency recommends, and will in no wiſe countenance any Officer of our Appointment, if we find he has been remiſs in his Duty, or neglected to pay due Deference to his Majeſty's Commands.

The Reaſon why the Treaſurer did not account, is given in a Repreſentation, made by the General Aſſembly, to which we humbly refer.

We think it is his Duty to account, but humbly hope, his Majeſty will not countenance an extravagant Demand, under the Notion of antient Fees, no otherwiſe eſtabliſhed than by the Deputy Auditor, and which if paid, will make a Deficiency in the Support of his Majeſty's Government here.

We ſhould be juſtly blameable by the People, whom we repreſent, did we not heartily join with your Excellency in ſtudying to encourage the Induſtry, and promote the peopling of the Province. It will be one of our principal Views in our preſent Deliberations.

We eſteem ourſelves Happy in being under the beſt of Kings, and committed to the Care of a Governor, worthy to repreſent him.

The humble Addreſs of the General Aſſembly of his Majeſty's Province of New-York, *in* America.

May it pleaſe your Excellency,

THE General Aſſembly of this Province, beg you to receive their humble and hearty Thanks, for communicating to them the Letter, from the Commiſſioners of the *Indian* Affairs at *Albany*.

They are very ſenſible of the ill Effects the Trade with the *French* at *Canada* has had, and will have, if not timely and effectually prevented, as your Care has been uſed according to your Power to prevent it, and in a great Meaſure attended with Succeſs. So we become Supplicants, that you would, to your other Endeavours for procuring the publick Safety, add a Denial of any Licence to any Inhabitants of this Province, giving the Leave to paſs to *Canada*, unleſs the publick Affairs of this Province make it neceſſary, and that you would alſo pleaſe (if poſſible) to recall thoſe already granted.

And ſince the Commiſſioners have informed your Excellency, that ſome of the Perſons gone with thoſe Paſſes, are gone with Intent to ſtay in ſome Part of the *French* Dominions as Factors; we humbly hope, that your Excellency will think it neceſſary, to command them to return, immediately on the Receipt of your Excellency's Order. It being under the Protection of ſuch Paſſes, and by the Bearers of them ſtaying there, a clandeſtine Trade will be carried on, ſo contrary to your

Excellency's good Inclinations, and the Publick Safety of the Province.

By Order of the General Aſſembly,
Robert Livingſton, *Speaker.*

Ordered, That Mr. Speaker do ſign the Addreſs.

Die Jovis, 9 ho. A. M. June 28, 1722.

THE House (according to Order) resolved into a Committee of the whole House, to consider further of paying such publick Money remaining in the late Treasurer's Hands, to the Treasurer of this Colony; and Mr. *Philipse* reported from the Committee, That they find by a Report of a Committee of this House (appointed to examine the Accounts and Vouchers of the said late Treasurer) the 10th of *July*, 1721, the following Sums belonging to the Publick, *viz.*

Not to be cancelled.

Of the *Three Thousand Pounds* Tax for fortifying the City of *New-York*,	£. 183	1	5 ¾
Of the *One Thousand Two Hundred Pounds* Tax, for Presents to the 5 Nations of *Indians*,	72	9	1 ¾
Of the Act for *Seven Hundred and Fifty Six Pounds Four Shillings*, to defray extraordinary Charges,		17	[illegible] ¾
Of the 2855 Ounces Tax, towards the Defence of the Frontiers,	4	18	3 ¾
Of several other Branches,	44	18	8
Of the Act commonly called the Second long Bill,	581	6	4 ½
	£. 887	11	3

To be cancelled.

Of the *Six Thousand Pounds* Tax, towards the first Expedition against *Canada*, received more than cancelled,	£. 29	0	2 ½
Of the *Ten Thousand Pounds* Tax, received more than cancelled,	541	5	1 ¾
Of the Excise, received more than cancelled,	247	1	11 ¾
And of the additional Duty,	211	12	9 ½
	1029	0	1
Amounting in all to the Sum of	£. 1916	11	4

They also find by the said Report, that the said late Treasurer had sunk and cancelled in Bills of Credit, more than he had actually received until the 16th of *June*, 1721, the two following Sums, *to wit*,

Of the Act for levying *Four Thousand Pounds*,	£. 114	8	6 ¾
And of the Act for levying 10,000 Ounces, or 14,545 Lion Dollars,	67	6	9 ¾
	£. 181	15	4

It is the Opinion of the Committee, That as the said late Treasurer did sink and cancel more than was actually received by him, in Expectation of being speedily reimbursed out of the Arrearages then due; so it seems highly reasonable and just, that the aforesaid Sum of *One Hundred and Eighty One Pounds, Fifteen Shillings and Four Pence*, should be retained in his Hands out of the said *One Thousand Nine Hundred and Sixteen Pounds, Eleven Shillings and Four Pence*; and that the Surplus of all other publick Monies, ought to be paid unto the present Treasurer, pursuant to his Excellency's Order in Council the 14th of *December* last, and that his Receipt be a full Discharge to the late Treasurer for the same; which Report was read, and agreed to by the House.

Ordered, That by Reason of the Infirmities of Col. *Abraham De Peyster*, late Treasurer of this Colony, his Wife, *Catharine De Peyster*, do comply with the Directions in the said Report, and that the Clerk serve her with the Copy thereof, and also with the Copy of this Order; and serve the present Treasurer, *Abraham De Peyster*, Junior, with the like Copy.

A Meſſage from his Excellency, by the Deputy Secretary, who attending without, was called in.

Mr. Speaker,

I Am ordered by his Excellency, in Anſwer to the Meſſage from this honourable Houſe, by Mr. Philipſe *and Mr.* Van Horne, *to acquaint this Houſe,*

That his Excellency takes this Meſſage from the Houſe, as a peculiar Mark of their Confidence in him, in deſiring his Opinion in a Matter, which he had recommended to them in general only, and in which he expected, that their own Thoughts would have led them to form an Eſtimate, but ſince they have of their own Accord, referred that to himſelf; he has conſidered of it ſeriouſly, and ſends you the following Eſtimate, not queſtioning, but this will prove as it appears to be intended, an undeniable Inſtance of the Agreement of his Excellency's Sentiments, with thoſe of the Aſſembly.

As the Security of this Frontier depends in a great Meaſure, on the Fidelity of the five Nations to this Government, the moſt numerous of which the Seneka's, *are at a great diſtance from our* Chriſtian *Settlements, and are continually ſollicited by the* French, *to quit our Intereſt and embrace theirs.*

His Excellency conceives the moſt frugal and effectual Method, to keep them in their Allegiance, as well as to preſerve and increaſe our Trade with the far Indians, *is to have a fixed Trading Houſe, eſtabliſhed among the ſaid* Seneka's, *and to encourage ſuch a Company to ſettle among them, as ſhall be ſufficient to entertain a conſtant Amity and Familiarity with that Nation, and take all Methods requiſite to invite the Nations, to trade with this Province, and to keep a conſtant Intercourſe with the City of* Albany.

A Company fit for all theſe Purpoſes, cannot well conſiſt of leſs than twelve Perſons.

One principal Officer, who ſhould be a Man of Figure and Experience, above ſuch little Practices in Trade, as may leſſen his Character,

Character, and capable to manage the Intereſts of this Province, with all the Wiſdom and Reſolution requiſite.

	£.	s.	d.
The leaſt that can be allowed him, is One Hundred Pounds.	100	0	0
Another Perſon to be his Lieut. and fit to manage Matters in his Abſence, when the chief Officer ſhall find it neceſſary to attend the Government, to give them full Informations and to receive particular Orders; his Allowance to be Fifty Pounds.	50	0	0
Ten Perſons to form a Company ſufficient, ſome for attending of the Trading Houſe, others to be ſent to the Indians, *as occaſion requires, and ſome to go to and from* Albany, *as often as they ſhall be wanted, at* Twenty Pounds *each Man;* Two Hundred Pounds.	200	0	0
The Expence of Building the Trading Houſe already ordered, can ſcarce be valued at leſs, than One Hundred *and* Fifty Pounds.	150	0	0
The Expences of the Interpreters Journies, among all the five Nations, which cannot now be defrayed out of the Allowance of the Commiſſioners of Indian *Affairs, but are often of the greateſt Neceſſity, will probably amount to* One Hundred Pounds.	100	0	0
A Smith for the Seneka's *and* Cayouga's, *with a Mate, that the* French *may not be invited to perform that Service as formerly,* Thirty Pounds.	30	0	0
Other ſmall incidental Charges which cannot be particularly gueſſed, about	55	12	6
Bedding for the Garriſon.	114	7	6
Total,	800	0	0

To explain the laſt Article, his Excellency bid me acquaint you, that the Deſertion of the Troops would be fatal to the Security of the Frontier, ſince they ought all to be in a Readineſs to march thither, when the Service ſhall require it, and being well informed, that the Want of Bedding, would occaſion Deſertion when ever a hard Winter ſhould come; he did laſt Year, provide them in the cheapeſt Manner, with Neceſſaries to that Intent, and did order a Sale of ſome Palatine *Stores, left by Brigadier* Hunter, *for to defray this Charge, and applied ſome of thoſe Stores themſelves to anſwer it,* viz.

	£.	s.	d.
Seventy Eight Rugs, which coſt Eighty Two Pounds, Eleven Shillings.	82	11	0
Sixty Seven of the beſt Tents made into Beds, which Tents muſt be accounted for to Brigadier Hunter, *at the Price of* Nine Shillings *and* Six-pence, per *Tent, which thoſe of the ſame Sort yielded at Vendue,* Thirty One Pounds, Sixteen Shillings *and* Six-pence.	31	16	6
In all	114	7	6

Upon his Excellency's acquainting Brigadier Hunter, *of his having ſo done, he in his Anſwer inſiſted upon it, that thoſe Stores are his own private Property, being far ſhort of the Ballance due to him from the Crown, for that Service of the* Palatines, *which juſt Pretenſion, his Excellency thinks himſelf obliged in Honour to comply with, and therefore depends in your providing for his Re-payment for a Service not leſs neceſſary or preſſing, than the Repairs of the Fortifications themſelves, which you have reſolved to defray.*

His Excellency does not Doubt that you remember that the Purpoſes for which the 2 per Cent. *Act was given, were two-fold,* viz. *Two-thirds of the Produce of that Act, to the Security of the Frontiers, and One-third to any incident Charges of the Government.*

He muſt again obſerve to you, that there is no Reaſon to hope that Act will ever paſs; and that Act was to have continued for 5 *Years. He thinks you will do nothing new, and only what you enacted the firſt Seſſion. If you provide ſuch Sum as you judge that Act would have produced, and for the ſame Uſes; and till you are convinced that this Act will never paſs, the providing for theſe Purpoſes only from Year to Year, is a ſafe and certain Way of not doing more than was at firſt intended and undertaken by you.*

The Frankneſs with which you have deſired his Excellency's more particular Thoughts, has engaged him to give you them in this ample Manner, that you may ſee he will ſpare no Pains to inform you, when you deſire it.

Reſolved, That this Houſe will take the ſame into Conſideration.

The Houſe (according to Order) reſolved into a Committee of the whole Houſe, to conſider further of the Bill, entitled, *An* Act, *for the further and more effectual prohibiting of the ſelling* Indian *Goods to the* French, *and for the further continuing and rendering more effectual an Act made for that Purpoſe,* entitled, *An* Act, *for the Encouragement of the* Indian *Trade, and rendering it more beneficial to the Inhabitants of this Province, and for prohibiting the ſelling of* Indian *Goods to the* French; and Col. *Morris* reported from the Committee, That they had made a further Progreſs therein, and had directed him to move, they may have Leave to ſit again.

Reſolved, That this Houſe will, in the Afternoon, reſolve into a Committee of the whole Houſe, to conſider further of the ſame.

Then the Houſe adjourned to 5 of the Clock in the Afternoon.

Die Jovis, 9 ho. A. M. July 5, 1722.

THE House (according to Order) resolved into a Committee of the whole House, to consider of the Bill, entitled, *An* Act, *for the more easy and effectual Recovery of Arrears due and payable for the Support of this Government.* After some Time spent therein, Col. *Morris* reported from the Committee, That they had made a Progress therein, and had directed him to move, they may have Leave to sit again.

Resolved, That this House will, in the Afternoon, resolve into a Committee of the whole House, to consider further of the same.

The House taking into Consideration the Petition of *Gilbert Livingston*;

Ordered, That Leave be given to bring in a Bill according to the Prayer of the Petition.

Then the House adjourned to 4 of the Clock in the Afternoon.

Die Jovis, 4 ho. P. M. July 5, 1722.

THE engrossed Bill, entitled, *An* Act, *for the further and more effectual prohibiting of the selling* Indian *Goods to the* French; was read the third Time.

Resolved, That the Bill do pass.

Ordered, That Col. *Morris*, do carry the Bill to the Council, and desire their Concurrence thereto.

A Bill, entitled, *An* Act, *to enable Trustees therein named, to take, sell and dispose of certain Lots of Land, the Estate of* Gilbert Livingston, *in the City of* New-York, *for the Payment of a certain Bond given, and Debt due to his Majesty on the said* Gilbert Livingston, *his Contract for farming the Excise of this Province*; was read the first Time, and ordered to be read a second Time.

The House taking into Consideration the Memorial of *Catharine De Peyster*, in Behalf of her Husband, *Abraham De Peyster*, late Treasurer, and *Abraham De Peyster*, junior, the present Treasurer of this Colony, setting forth, that Suits were severally commenced against them in his Majesty's Name to render Accounts; and praying such Relief and Directions therein, as to this House should seem meet.

The House resolved into a Committee of the whole House, to consider further of the same. After some Time spent therein, Mr. *Jansen* made the following Report from the said Committee, *viz.*

They find, that the several Acts of Assembly, by Virtue of which publick Monies were to be received and issued by the Treasurer of this Colony for the Time being, do enact and direct, that he should be accountable to the Governor, Council and Assembly; and that the greatest Part of such Monies, or Value of Monies, were appropriated to particular Uses, and have taken their Effect long since.

That a Committee of this House, in Conjunction with another of the Council, did examine the Books and Accounts of the late Treasurer, and having carefully compared the Charge with the Vouchers of the Discharge until the 5th Day of *June*, 1721, as may appear by their respective Reports, dated the 10th Day of *July*, in the same Year; the Governor, Council and Assembly seemed satisfied therewith.

It's nevertheless their Opinion, that as all publick Monies were given to his Majesty, and his royal Predecessor, though appropriated to particular Uses; his Majesty may appoint any Person to demand Accounts thereof, but they cannot conceive that such Person is entitled to any Perquisite or Fee for the same, either from the Treasurer, or from the Colony, not only for the Reasons set forth in a Representation from this House to his Excellency, dated the 30th Day of *June*, 1721, but because no such Demand is made from any of the neighbouring Colonies.

And though they are of Opinion that the late Treasurer, or some Person for him, should account with the Deputy Auditor, they are likewise of Opinion, it ought to be in the Form and Method those Accounts have been kept in his Books, at least until the said 5th Day of *June*, 1721; it seeming impracticable to render them in any other, by Reason of his long and still continuing Indisposition.

It's also their Opinion, that as the Right Honourable the Lords of the Treasury, by their Letter, dated the 17th Day of *August*, 1720, insist only on an Account of the Monies for the Civil Government, all other extraordinary Levies do not fall under the same Circumstances, most of which having taken their Effect already; which being read, was agreed to by the House.

Resolved, That as all the Monies received by the Treasurers, were appropriated to particular Uses, without any Surplus or Provision to answer the Demand of an Auditor, so this House is obliged, and will take Care, that the said Treasurers shall not be Sufferers by any such Demand, or by any Expence of Cost or Damage that may accrue by the Suits already commenced, or that may be commenced against them, or either of them, or against any Treasurer of this Province for the Time being, for or by Reason of any Perquisite or Fee, claimed to be due to an Auditor, for auditing the said Accounts, or any of them.

The House (according to Order) resolved into a Committee of the whole House, to consider further of the Bill, entitled, *An* Act, *for the more easy and effectual Recovery of the Arrears due and payable for the Support of this Government.* After some Time spent therein, Col. *Morris* reported from the Committee, That they had made a further Progress therein, and had directed him to move, they may have Leave to sit again.

Resolved, That this House will, To-morrow Morning, resolve into a Committee of the whole House, to consider further of the same.

The House resolved into a Committee of the whole House, to consider of the Estimate of the Charge and Expence requisite for the Security and Defence of the Frontier, communicated to this House by his Excellency. After some Time spent therein, Mr. *Philipse* reported to the House, That they had made some Progress therein, and had directed him to move, they may have Leave to sit again.

Resolved, That this House will, To-morrow, resolve into a Committee of the whole House, to consider further of the same.

Then the House adjourned to 9 of the Clock To-morrow Morning.

His Excellency our Governor, having by Col. *Provooſt*, ſent for the Peruſal and Conſideration of this Houſe, the 93d and 94th Article of his Majeſty's Inſtructions to him, regulating the Quota's of Men or Money to be furniſhed by the ſeveral Colonies, in Caſe our Frontier ſhould be invaded, and upon Invaſion

Invaſion of the neighbouring Plantations, to aid and aſſiſt them in the beſt Manner, and as the Condition and Safety of this Government will permit; as alſo a Letter to him from Col. *Samuel Shute*, Eſq; Governor of the *Maſſachuſets-Bay*, &c. in *New-England*, dated the 1ſt of *September* laſt, making a Demand conformable to the ſaid Repartition, by Reaſon of the War he had declared againſt the *Eaſtern Indians*. And the Houſe having duly conſidered of both, came to the following Reſolutions thereon, *viz.*

That they are ſenſibly touched and grieved at the barbarous and cruel War, their good Neighbours of *New-England*, are engaged in with the ſaid *Indians*; and on the other Hand, that the Circumſtances of this Colony, is ſo far from being able to afford them, the Aid and Aſſiſtance their Diſpoſition would incline them to, if they were in a Condition. That by the annual and conſtant Charge to ſecure our five Nations of *Indians* in the *Britiſh* Intereſt, maintaining and repairing the Forts and Fortifications on our Frontiers, the great Charge in ſupporting this Government, and the leſſening the heavy Debts it labours under, that even this Seſſion, they have been obliged to burthen its Inhabitants with ſeveral large Taxes.

That the Colony being thus circumſtanced, this Houſe is greatly pleaſed that his Excellency, at his late Treaty with the five Nations at *Albany*, has enjoined and engaged them to depute one, out of each Nation, to go to the ſaid *Eaſtern Indians*, and to threaten them in the Name of their Principals, that they will make War upon them, in Caſe they do not ſtrike up a Peace with his Majeſty's Subjects of *New-England*, and thoſe Deputies being actually gone upon that Meſſage, accompanied with a *Chriſtian*, this Houſe hopes it will have a happy Effect, which they are the more inclinable to believe, becauſe the like Meaſures being uſed by this Government, about the Year 1675, did very much contribute to finiſh a more cruel War (commonly called King *Phillip's* War) wherein *New-England*, was then engaged in with the *Indians*.

Ordered, That the Speaker deſire his Excellency to communicate the Sentiments of this Houſe to Col. *Shute*, and that he will at the ſame Time acquaint him, That the preſent State of this Colony, does altogether deprive them of the Means to aid them at this Time, however well diſpoſed they may be to do it.

Ordered, That *Thomas Brazier* the Door-keeper to this Houſe, be allowed the Sum of *Six Pounds*, for extraordinary Service, and that this Houſe do addreſs his Excellency, to iſſue his Warrant to the Treaſurer for paying the ſame.

THE *Unanimity and mutual Confidence that have appeared in our former Meetings; and the general Tranquility that is observed through the whole Province, leaves me little Room to apprehend Miſchiefs ariſing from Differences among ourſelves.*

But, when wicked Men, in defiance of the moſt ſacred Obligations, are continually conſpiring the Ruin of that glorious Nation to which we belong, we cannot but feel the higheſt Concern while our common Fate is in Suſpence, and receive the News of a Deliverance, with all imaginable Joy.

The Dangers which have hitherto threatened us, have all taken this happy Turn; and we are now certainly informed, that the late traiterous Schemes which have been laid againſt His Moſt Excellent Majeſty, and his happy Kingdoms, have been rejected and diſappointed by foreign Princes; diſcovered and prevented by the Adminiſtration at Home, and have now brought the Conſpirators to national Juſtice, and parliamentary Reſentment.

Could we have believed that under the beſt of Kings, ſupported by a chearful Parliament, and reſpected by all the Powers of Europe, a diſcontented Party alone would thus attempt to overturn the Conſtitution? But ſince Men ſhew themſelves ſo deſperate, the profoundeſt State of Peace, Safety and Proſperity, can never juſtify a Remiſſneſs in providing againſt publick Danger.

What is true of great Nations, is not leſs applicable to Provinces that depend on them.

You are very ſenſible at how great a yearly Expence the Government at Home provides for your Security, both by Land and Sea; and if this does not encourage you to make good your own Part, in putting your Harbour and your Frontier in an effectual Poſture of Defence, and in providing ſufficient Stores and Magazines, under a proper Regulation, how will you anſwer it to yourſelves, if at any Time you ſhould come to be deſtroyed by Surprize?

I have ſome Reaſon to hope that it cannot be an Apprehenſion that the Sums raiſed for that Purpoſe, may be miſapplied; that will divert you from thinking of it without Delay.

What you have given towards encouraging a Trade with the far Nations of Indians, *has been frugally employed, and ſeems to have had a very happy Effect: If this Encouragement is continued, and the pernicious Trade to* Canada, *can be effectually prevented, the Beginnings that are already made to bring that Trade into a right Channel, can ſcarce fail of coming to Perfection.*

I need only remind you of the Deficiency there is in the Revenue; the chief Cauſe of it, you were fully informed of at your laſt Meeting; and I depend on it, that your Juſtice and Humanity to the inferior Officers, will induce you to provide for it in ſo ample a Manner, that the Treaſury may be put in advance ſufficiently to pay Warrants when they become due; which I am informed has been the Practice formerly.

I ſhall be very glad to join with you in any Laws that can be thought of further publick Benefit; for as I cannot bear the Thoughts of any Thing againſt your Intereſt, ſo I ſhall not be eaſy if I omit any Thing that lies in my Power to promote it.

A Meſſage from the Governor, by Mr. *Bobin*,

Mr. Speaker, I am commanded by his Excellency, to acquaint this Houſe, he expects their immediate Attendance at the Council Board.

Then Mr. Speaker left the Chair, and with the Houſe, attended accordingly; being returned, Mr. Speaker reſumed the Chair, and informed the Houſe, his Excellency having made a Speech, to prevent Miſtakes, he had obtained a Copy thereof; and the ſame was read, being as follows, viz.

Gentlemen,

'THE hearty Zeal which you have ſhewn to his Majeſty's Government, and your juſt Concern 'for the Welfare of *Great-Britain*, on which your own 'Safety and Happineſs depends, makes this Opportunity 'very agreeable to me, of rejoicing with you at the preſent 'happy Poſture of Affairs at Home, and the unparralel'd 'Glory his Majeſty has gain'd abroad, by fixing the 'Peace and Tranquility of Europe on ſuch laſting Foun'dations, as humanly ſpeaking, cannot eaſily be ſhaken.

'The Wiſdom of a *Britiſh* Parliament, has been very 'eminent upon this Occaſion: They have not ſlackened 'their Care in ſecuring the Nation from Danger or Sur'prize; and they have employed a Time of Plenty, 'Wealth, and Quiet, in providing for an eaſy and effectual 'Payment of the publick Debts.

'It is with Pleaſure I recommend to you ſo great an 'Example, ſince, as I am ſure you approve and admire 'it, I have Reaſon to expect you will imitate it in your 'Meaſures, for maintaining the Defence and Credit of 'this Province.

'When you are informed of the ruinous Condition of 'the Buildings of this Fort, (which is the only Strength 'of this Town and Harbour) you will agree with me, 'that an immediate and ſufficient Proviſion to repair it, 'is the moſt frugal Method to go about ſo neceſſary a 'Work: What you have formerly provided, has been 'fully employed by me for that Service; and I will order 'an Eſtimate of the extraordinary Repairs now wanting, 'to be laid before you.

'The great Arrears due on the Support of Govern'ment, are a great Hardſhip and Diſcouragement to the 'Officers; which I believe you will not think they 'deſerve; I muſt therefore earneſtly recommend it to you, 'to make an effectual Proviſion for all the Incumbrances 'remaining on the Revenue; and to ſupply the Revenue 'ſo amply, that for the future, Warrants may be paid 'punctually as they become due.

'I have the Satisfaction to acquaint you, That his 'Majeſty has given his royal Approbation, by an Order 'in Council, to

'*An* Act, *for running and aſcertaining the Lines of Par'tition and Diviſion between this Colony, and the Colony of* 'Connecticut.

'I muſt obſerve to you, That this has not been ob'tained without much Oppoſition from the Agent for 'the Colony of *Connecticut*; and after two Hearings, one 'before the Lords of Trade, and the other before a 'Committee of the Privy Council; who reported to his 'Majeſty in Favour of the *Act*.

'The Uſefulneſs of having Agents conſtant at Home, 'appear very plainly to you upon this Occaſion, and I 'wiſh I was not obliged to remind you to make good your 'Engagements for the Time paſt on that Account, as I 'am confident you will judge it neceſſary to continue the 'like Encouragement for the future; that what you have 'ſtill depending, and what you ſhall have from Time to 'Time, may not ſuffer for want of that due Attendance 'which the Buſineſs requires; and without which, the 'Miſrepreſentations of private Perſons, may gain Credit 'to the Prejudice of your Proceedings.

'When I ſend you a Copy of his Majeſty's Order in 'Council, I will at the ſame Time, ſend you Copies of 'all the Papers that paſſed at a late Meeting between 'Commiſſioners for this Province, and Commiſſioners for '*Connecticut*; from whence the latter thought fit to with'draw unexpectedly; that you may conſider what further 'Meaſures to take, to bring this Affair to a Concluſion.

'I believe you are very ſenſible of the good Effect of 'the Laws to prevent the Trade for *Indian* Goods to '*Canada*. The Number of remote *Indians* who came to 'Trade at *Albany* laſt Summer, was a Beginning of thoſe 'happy Conſequences which you had in View, and there 'is no Reaſon to expect greater Numbers of thoſe *Indians* 'at this Time, unleſs the *French* uſe Violence to prevent 'them; and in that Caſe, I am ſure there will not only be 'more Reaſon than ever to continue thoſe Laws; but 'indeed it will become neceſſary to forbid all Manner of 'Correſpondence with *Canada*, if they attempt to deprive 'you of the Right which the Treaty between *Great-Britain* and *France*, gives you of trading with all the '*Indians* on the Continent of *America*; who are not to 'be hindred or moleſted in their Way to and from any of 'the *Britiſh* Colonies, on Account of Trade.

'This Matter is of ſuch Conſequence, that I hope you 'will omit no Meaſures that may be taken to increaſe our 'Trade with the far Nations, and prevent any Perſons 'from continuing to ſerve the *French* Intereſt for their 'own private Gain, to the manifeſt Detriment of the 'publick Intereſt and Safety; and at the ſame Time I 'am confident you will, that all proper Methods ſhould 'be provided for that may encourage the five Nations to 'remain firm to us, and to prevent the unwearied En'deavours the *French* uſe to ſeduce them.

'I received an additional Inſtruction from his Majeſty, 'concerning private *Acts*; of which I will ſend you a 'Copy.

'If any Laws are thought requiſite by you for the pub'lick Good, I ſhall always continue my Readineſs to 'join with you in every Thing conſiſtent with my Duty, 'and your Happineſs.'

WILLIAM BURNET.

The Houſe (according to Order) reſolved into a Committee of the whole Houſe, to conſider further of his Excellency's Speech; and Col. *Provooſt* reported from the Committee, That they had gone through that Part of the ſaid Speech relating to running and aſcertaining the Lines of Partition and Diviſion between this Colony and the Colony of *Connecticut*, and what has been tranſacted by the reſpective Commiſſioners which lately met at *New-Rochelle*, for that Purpoſe; which they had directed him to report to the Houſe; which he delivered in at the Table, and the ſame was read, and agreed unto by the Houſe, and is as followeth, *viz.*

That from the ſeveral Memorials and written Meſſages which paſſed and repaſſed at the ſaid Congreſs, it is evident, that the Commiſſioners of *Connecticut*, had really as little Regard to the original Agreement in 1683, as they had to the Survey which ſucceeded the ſame in 1684, though both of them were confirmed by his late Majeſty King William, *Anno* 1700; and that they did not meet the Commiſſioners of this Colony, with any real Intention to ſettle and aſcertain the Partition Lines betwixt the two Colonies, according to the ſaid Agreement and Survey; but that they acted in this Affair, either with an Intention to defeat the juſt and amicable Endeavours of this Government to ſettle thoſe Lines by Conſent, or with a View to fix them in ſuch Manner as would be different from the ſaid Agreement and Survey, and injurious to the Crown, or to the People of this Province, Proprietors of the Soil; and this ſeems to be corroborated by a Letter which the Governor of *Connecticut* wrote to his Excellency, dated the 7th of *May* laſt.

It appears on the other Hand from the ſaid Memorialiſts, that the Commiſſioners of this Colony, did not, during all that Congreſs, offer any one Thing but what was exactly agreeable to the Agreement and Survey abovementioned.

Ordered, That Mr. Speaker give the Thanks of this Houſe to the Gentlemen who acted in Behalf of this Colony, for their candid and prudent Proceedings at the ſaid Congreſs.

Ordered, That Mr. Speaker do addreſs his Excellency, that he will be pleaſed to deſire the Governor of *Connecticut*, that the Partition Lines betwixt the two Colonies may be fixed and aſcertained amicably, and in Conjunction, according to the Agreement and Survey aforeſaid, and as of Right they ought to be. And this Houſe is induced to believe, that Colony will the readier join in ſuch juſt and equitable Meaſures, becauſe this Government is veſted with full Power to fix and aſcertain thoſe Lines, *ex parte*, by an Act of our General Aſſembly, paſſed in the Year 1719, entitled, *An* Act, *for running and aſcertaining the Lines of Partition and Diviſion, betwixt this Colony and the Colony of* Connecticut; which was looked upon by his Majeſty ſo juſt and reaſonable in itſelf, that he has been graciouſly pleaſed, with the Advice of his privy Council, to ratify aud confirm the ſame the 23d Day of *January* laſt.

Then the Houſe adjourned to 3 of the Clock in the Afternoon.

The Memorial of Madam *Catharine De Peyster*, in Behalf of her Husband, the late Treasurer of this Colony, still labouring under an unhappy Indisposition, was presented to the House, and read, setting forth;

That *George Clark*, Esq; Deputy Auditor, under the honourable *Horatio Walpole*, Esq; has signified, That he expects her to account for all such Articles in the two long Acts, passed in the Years 1714 and 1717, as were therein allowed, upon Warrants from the Government, in Order (as she conceives) to support a Demand for the Auditor's Fee of the same.

That she is advised no such Demand ought to lie; *First*, Because all the Articles in those Acts, were appropriated and made payable to particular Persons.

Secondly, Because the Provision made by the Legislature, to discharge those Debts, was deemed an extraordinary Levy, for the Relief of such as had Claims on the Colony, for Services done and Goods delivered for its Use; and, *Thirdly*, because this was looked upon as an Act of so much Justice, that his present Majesty, gave his royal Sanction to both these Acts, by ratifying and confirming the same.

That if such a Demand was brought, it ought not to be against her, much less to affect her, because no Provision is made for it in those Acts, and because all publick Monies formerly under her Husband's Management (whilst Treasurer) has regularly been delivered to the present Treasurer.

That as the Disposition of that Money, is evident

evident by the Acts themſelves, without forming Accounts thereof, ſhe conceives, that if ſuch Accounts ſhould be demanded, it can only be for the End above-mentioned, and therefore prays this Houſe, to give her ſuch Aid and Directions therein, as to them ſhall ſeem meet.

Ordered, That the Conſideration of the ſaid Memorial, be referred to a Committee of the whole Houſe.

Then the Houſe, reſolved into a Committe of the whole Houſe, to conſider of the Memorial. After ſome Time ſpent therein, Mr. *Philipſe* reported from the Committee, That they had conſidered the Matters ſet forth in the ſame Memorial, and find the Allegations thereof true, and the Reaſons therein contained Juſt. And having examined and conſidered the two Acts therein mentioned, are of Opinion, the Memorialiſt and the Treaſurer's for the Time being, ought to be ſaved harmleſs from all Coſt and Damages, which may happen to ariſe upon thoſe Heads; which he delivered in at the Table, where the ſame was read, and agreed unto by the Houſe. And it was thereupon,

Reſolved, Nemine Contradicente,

That in Caſe the late Treaſurer or the Memorialiſt ſhould be ſued, troubled, arreſted, proſecuted or moleſted, for or by Reaſon of the two before mentioned Acts, or for any Fee or Reward pretended to be due to an Auditor for the ſame, or in any Part thereof, this Houſe will effectually ſave harmleſs, and indemnify not only the Memorialiſt and the ſaid late Treaſurer, but alſo any Treaſurer of this Colony for the Time being, from all Coſt and Damages that may accrue to them, or either of them, by any of the Means aforeſaid; purſuant to a Reſolve of this Houſe, the 5th of *July* 1722.

And the Houſe is of Opinion, They are well warranted in this Reſolve, becauſe they find Auditors are nominated and appointed by the two before mentioned Acts, and they do conceive, that as thoſe Acts have received the royal Aſſent, it excludes any other Auditor, though the ſeveral Articles therein allowed, had not been particlarly appropriated.

Then the Houſe adjourned till 9 of the Clock, To-morrow Morning.

Mr. Speaker, His Excellency commands the Attendance of this Houſe, immediately at the Council Board.

Then Mr. Speaker, and the Houſe, attended accordingly; and being returned, Mr. Speaker reſumed the Chair, and acquainted the Houſe his Excellency was pleaſed to make a Speech; which, to prevent Miſtakes, he had obtained a Copy thereof, and being read, is as follows, *viz.*

Gentlemen,

'I Cannot but look back with Pleaſure on your Conduct, ever ſince I have had the Happineſs to be among
'you: Your Readineſs to ſupport the Government in an
'honourable Manner; your repeated Endeavours to pre-
'vent the Growth of the *French* Power, and to ſtrengthen
'the *Britiſh* Intereſt among the *Indians*; and your ſeaſon-
'able Supplies for the Repairs of his Majeſty's Forts, will
'always be remembered to the Honour of this Aſſembly.
'If you have ſometimes met with Oppoſition, it has had
'little other Effect, than to juſtify your Proceedings:
'A late Inſtance of this Kind, has appeared in the un-
'wearied, and I wiſh I could not ſay, indirect Methods,
'taken by the Merchants to defeat your *Acts* againſt *Ca-*
nada;

'nada; but by the Diligence and Ability of your Agents, 'the Juſtice of your Laws has been ſo well repreſented, 'that the Succeſs has been in your Favour.

'It is now more and more evident every Year, of how 'great Advantage theſe Laws have been to the Trade and 'Security of this Province. The Quantity of Peltry, 'brought from the Country of the Five Nations, during 'this Summer, has far exceeded our Expectations, and is 'more than what uſed to come from *Canada*; and the far 'Indians from the Lakes, have, as I am informed, all 'ſtopp'd at our trading Place, and none of them proceeded 'to *Montreal*, as they uſed to do. I am confident that the 'ſurprizing Succeſs, and good Effects of this new Trade, 'and the Applauſe it has met with in *Great-Britain*, will 'engage you to take effectual Meaſures to encourage 'it, by renewing and enforcing the Prohibition of that 'pernicious Trade of *Indian* Goods to *Canada*; and by 'providing amply for the Charges neceſſary to keep the 'Indians faithful to us. To this End, it will be requiſite 'that ſome Perſons be appointed conſtantly to reſide among 'the *Onondagoes*, as well as the *Senecas*, who may be 'always ready to defeat the Arts which the *French* induſ-'triouſly imploy to ſeduce thoſe *Indians*: I have begun 'with this Subject, and dwelt the longer upon it, becauſe 'it highly concerns your Safety.

'The Revenue for the Support of this Government, is 'near its Expiration; I depend on your own Obſervation 'and Experience, to plead with you for as ample and ex-'tenſive a Proviſion, for the Time to come. Where 'Actions ought to ſpeak, Words ſhould not be offered in 'their Room. I ſhall only recommend the Officers of 'the Government to your Care; who, in doing their 'Duty, are often liable to private Reſentments; and are 'on that Account, entitled to Protection as well as Sub-'ſiſtence from the Legiſlature; and without a ſufficient 'Number of Officers, the Adminiſtration cannot be car-'ried on, and the Laws muſt loſe their Force.

'The Proviſion you have already made for renewing 'the decay'd Buildings of the Fort, will, I believe, appear 'to you to have been frugally and effectually employ'd; 'and I depend upon your coming to a Reſolution, that ſo 'good a Deſign ſhall not fail of what is ſtill wanting to 'compleat it.

'I can acquaint you with a further Inſtance, beſides 'what I have mentioned, of the Diligence of your Agents 'in the Service of the Province, and particularly for the 'Benefit of this City; and that is, their ſolliciting by 'my Directions, and obtaining the *Eaſt* End of *Long-'Iſland*, to be reſtored to the Diſtrict of the Collector of '*New-York*: You cannot deſire more convincing Proofs 'of the Uſefulneſs of having ſuch Agents, and therefore I 'rely on your making good your former Engagements to 'them, and your giving them Marks of your Eſteem and 'Confidence, in continuing their Appointment for a longer 'Term than you have hitherto done, and providing ſuit-'ably for their Payment.

'I have now gone through the ſeveral Particulars which 'I had to lay before you, and I ſhall only add this general 'Conſideration, to enforce them all; That at this Time, 'the happy Agreement that has always ſubſiſted between 'his Majeſty and his Parliament, ever ſince his Acceſſion 'to the Crown, is the Admiration of all *Europe*, and the 'Glory of the *Britiſh* Nation: I am perſuaded you will 'do your Part, in following ſo great an Example; and 'that you will regard what I propoſe to you, only as it 'tends to his Majeſty's Service.

WILLIAM BURNET.

Ordered, That the ſaid ſeveral Accounts lie on the Table for the Members to peruſe.

The Petition of the Mayor, Aldermen and Commonalty, of the City of *New-York*, was preſented to the Houſe, and read, praying Leave to bring in a Bill, to enable the Corporation to raiſe a Sum ſufficient for the building of a new Goal, or enlarging the Old one, as to the ſaid Corporation ſhall ſeem neceſſary; as alſo to enable them to raiſe ſuch annual Sums, as may defray the extraordinary Charges of this City and County, as is uſual in all other Parts of this Province, the Revenue of the City being now totally exhauſted in paying their neceſſary Officers, and repairing the Town Houſe, Docks, and other Works of the like Nature.

A Meſſage from his Excellency by Mr. *Bobin*.

Gentlemen, I am ordered by his Excellency, to lay the Chief Juſtice's Opinion, concerning Mr. *De Lancey*'s Qualification before the Houſe, that the Houſe may be fully enabled to form a Judgment, whether he is duly qualified to ſit as a Member.

I am likewiſe orderded by his Excellency, to lay before the Houſe, an Extract of a Letter from Mr. *Le Heup* to his Excellency, bearing date the 13th of *July* laſt.

And a Letter from the Commiſſioners of *Indian* Affairs in *Albany*, of the 2d of *September* Inſtant.

The Houſe taking into Conſideration, the Meſſage of his Excellency by Mr. *Bobin*, on the 13th Inſtant, relating to the Qualification of Mr. *Stephen De Lancey*, returned a Repreſentative for the City and County of *New-York*, in the Room of Col. *David Provooſt*, deceaſed, as alſo the Papers, Teſtimonials and Certificates, produced by Mr. *De Lancey* on the ſame Day; and likewiſe the Opinion of the Chief Juſtice*, relating to that Matter ſent

* *The following is the Chief Juſtice's Opinion above referred to, and is taken from the original Draught in his own Hand Writing, delivered to* William Smith *jun. Eſq; in the Year* 1755, *by his Son* Lewis Morris, *Eſq; lately deceaſed, and is in the Words following*, viz.

September 19, 1725.

May it pleaſe your Excellency,

IN Obedience to your Excellency's Commands of the 13th and 14th of this Inſtant September, *I have conſidered the Papers ſhewn to you by Mr.* De Lancey, *and of your Excellency's Queſtions; which are,*

Firſt, *Whether by any or all thoſe Papers, conſidered with or without the Act in the Year* 1683, *Mr.* Stephen De Lancey, *a Perſon of foreign Birth, is legally qualified to ſit and act, as a Member of the General Aſſembly, in the Province of* New-York; *in making and enacting Laws, for the Government of the ſaid Province*; And,

Secondly, *If Mr.* De Lancey *be a Deniſon, whether any Perſon, barely a Deniſon, and not naturalized by Act of Parliament in* England, *or Act of Aſſembly in this Province; can legally ſit and act as a Member of the Legiſlature?*

The firſt of theſe Papers is a Certificate, made by one Hayward, *a Publick Notary; certifying that he ſaw Letters Patents of Deniſation, granted by King* James *the Second, under the Great Seal of* England, *dated the 20th Day of* March, *in the ſecond Year of his Reign; wherein among other Things, was inſerted the Name of* Stephen De Lancey, *who though born beyond the Sea, is made his Majeſty's liege Subject*, &c. *and refers to the ſaid Letters Patent, where (as is ſaid) theſe Things may more fully and at large appear.*

Letters of Deniſation may be of divers Kinds, abſolute, limited, conditional, temporary, for Life or Years; but which of theſe it is, does not appear by this Certificate; if Temporary, for Years, or conditional, its Validity may be long ſince expired, for that Patent might have contained, all that it is there ſaid to contain, and much more, and yet might have been under Conditions and Limitations of Time; all that appears by the Certificate is, that a Patent of Deniſation did iſſue, and that one Stephen De Lancey, *is there named among others; but no Judgment can be formed from that Certificate, what Operation in Law that Patent of Deniſation could (if ſtill in Force) have.* 7 C. b. Cal. Caſe. C. Lit. 129 a. 2 Dan. ab. Title, Alien, Deniſen, 322, 323.

In Pages, Caſe 5th, co. 52 b. 53 a. *The great Queſtion was, whether the Defendant ſhould plead the Exemplification of the Enrollment, of the Letters Patent of Deniſation, by force of the* 3 Ed. 6 c. 4, *or of the* 13 El. ch. 6, *and it was objected, that neither Exemplifications nor the Conſtat of any Letters Patent, were pleadable at the common Law, and that the Caſe of Deniſations was out of the Words of both theſe Statutes; and it was reſolved by the Court, 1ſt, That it was, that neither an Exemplification nor a Conſtat, was pleadable, and to be ſhewn to the Court at common Law, becauſe they were but the Tenor of an Enrollment, and the Tenor of a Record is not by the Law pleadable. 2d, It was reſolved, that the* 13 *of* El. ch. 6. *did extend to Letters Patent of Deniſation, and all Patents whatſoever, without any Reſtraint; if this be Law, as I take it to be, let the Patent of Mr.* De Lancey, *be what it will, if thoſe Laws do not extend to theſe Parts, it will be neceſſary for him to produce the original Patent; or if they do an Exemplification or Conſtat of the Enrollment, under the Great Seal of* Britain, *if he propoſes any Advantages to himſelf, legally to be obtained by it, all other Proof being inſufficient.*

The ſecond Paper is a Patent of Deniſation, granted to Mr. De Lancey, *on the 7th of* July 1686, *by Col.* Dongan, *under the Seal of this Province. It ſeems very ſtrange that he ſhould take a Patent of Deniſation from Col.* Dongan, *which at moſt, could extend no farther than the Bounds of this Province, if he had one under the Great Seal of* England, *which extended over all the King's Dominions. I have peruſed Col.* Dongan's *Commiſſion from King* James, *and do not find, any ſuch Power or Authority given to him, without which, in my humble Opinion, it could not be granted; and of this Opinion, were the whole Plantation Board, in a Caſe of Letters of Deniſation, granted by Col.* Fletcher, *to one* Arnold Naudin, *a* Frenchman, *wherein they ſay, that they do not find, that either Col.* Fletcher, *or any other the Governors of his Majeſty's Plantations in* America, *had, or have any Manner of Power or Authority conferred on them, by their reſpective Commiſſions, to endeniſe Foreigners, and give their Opinion, that the Deniſations granted by Col.* Fletcher, *are not only void in themſelves, as not grounded on any Authority whatſoever, but of moſt pernicious Conſequence, and directly contrary to the Intention of the Laws of* England, *which relate to the Plantation Trade; this is farther confirmed, by a Report of Sir* John Trevor *and Sir* John Hawles, *then Attorney and Solicitor General, read at the Council Board in* England, *the* 18th *of* January 1699, *wherein they ſeem to term the Acts of Naturalization in the Plantations, Deniſations, and mention two Acts of Naturalization, paſſed in* Maryland, *and take Notice of the Letters of Deniſation, granted to* Naudin, *and give their Opinion, that the*

Governors

sent this Day by his Excellency; they also considered the two Acts of Assembly, relating to the Elections of Representatives; the Clause in his Excellency's Letters Patents, relating to the calling of Assemblies, and examined several Persons, in relation to the Certificates of Col. *Nicholas Bayard*, in the Year 1687, grounded as well on the Act for naturalizing Foreigners in 1683, as on a Proclamation in 1687 of the then Governor and Council (in whom the Legislation was then vested) and finding that some of the Members of this House, as well as many other Persons throughout this Colony, had no other right of Naturalization,

Governors of the Plantations, ought not to grant Letters of Denisation, unless they were expressly authorized so to do by their Commissions; and accordingly there was an Order made by the King in Council, on the 18th of Jauuary 1699; *that Letters of Denisation be not granted by any the Governors of his Majesty's Plantations, otherwise than according to the Opinion of Mr. Attorney and Soliciter General, set forth in their Report; by that Report, they seem to comprise under the Term Denisation, not only Patents of Denisation granted by the Governors, but also Acts of Naturalization, passed by the General Assemblies in the Plantations, which seem to be forbidden to be passed, without a Restriction and Regard had to the Acts of Navigation, and other Statute, of* England, *no Law being to be passed in any of the Plantations, repugnant to the Laws of* England; *but be that as it will, with respect to Letters of Denisation, I take the Law to be positive and clear, that the granting of them, is a Prerogative solely and inseparably annexed to the Person of the King, and cannot be delegated to any other Person whatsoever. See,* 7 Co. 25. b. Calvin's *Case*, 2 *Rolls*, Rep. 93. Palmer's Rep. 13, 14; *and the Books say, the Kings of* England *have been sparing in granting them,* ne inde admitantur inimici tanquam in equo Trojano; *one Enemy in the Heart of a Common Wealth, being of more dangerous Consequence, than Thousands without.* Pal. 14; *and as I take it, both this and all other Letters of Denisation, granted by Governors of Plantations (especially not having express Powers for the granting them) are in themselves void.*

The third Paper, is a Certificate of Nicholas Bayard, *Esq; then Mayor of* New-York, *dated the 7th of* September 1687; *certifying that* Stephen De Lancey, *had been an Inhabitant one Year and three Months, and had taken the Oath of Allegiance, as directed in an Act of General Assembly, made in the Year* 1683, entitled, An *Act*, for naturalizing all those of foreign Nations, then inhabiting within this Province and professing Christianity, *and in pursuance of a Proclamation of the Governor and Council, of the 14th of* June *then past, and that he had caused the said* Stephen De Lancey *to be enrolled.*

I have not seen the Proclamation, so can say nothing to it; the Title of the Act is larger than what is mentioned in the Certificate, being entitled, An *Act*, for naturalizing all those of foreign Nations, at present inhabiting within this Colony and professing Christianity, and for Encouragement of others to come and settle in the same; *and is, I suppose, the Act of Assembly referred to, which has two enacting Clauses; the one, That all Foreigners of what Nation soever, professing Christianity, that then were actual Inhabitants within this Province, and had taken or* subscribed, *or that should take or* subscribe *the Oath of Allegiance, were thereby naturalized.*

The other, that all Foreigners of what Nation soever, professing Christianity, that at any Time after the said Year 1683, *should come into this Province, with an Intent to become his Majesty's Subjects, and to dwell, settle and inhabit accordingly, and take the Oath of Allegiance to his Majesty, and Fidelity to his Royal Highness the Proprietor,* &c. *Every such Person* may be *naturalized* by Act of Assembly, *and* from thence forth, *shall in all Respects, be deemed as his Majesty's natural born Subjects,* &c.

By the Mayor's Certificate it appears, that Mr. De Lancey, *arrived here some Time in the Beginning of* June 1686, *so that he was not an Inhabitant before, or at the Time of making the Act, therefore not within the Perview of the first Clause, which is indeed, very favourable, allowing any Person, that would then subscribe the Oath of Allegiance, to be naturalized. The second Clause, for the Encouragement of such as would come in, and comply with the Terms of it, promises, that they might afterwards be naturalized by an Act of Assembly, which Promise Mr.* De Lancey, *has not thought fit hitherto, to take the Advantage of, and is not at present naturalized or made a Denison, by Virtue of that Act, referred to in the Mayor's Certificate.*

Upon the whole of these Papers, whether considered by themselves, or with the Act of Assembly, made in the Year 1683, *or any other Act of the Assembly of this Province, that is known to me, they do not confer the Benefit of Naturalization, and should they all be good and valid, for what was intended by them in their utmost Force, they neither can, nor never were meant to confer a greater Benefit than that of Denisation, which doth not legally entitle any Person to a Seat in the Legislature, as will more fully appear in the Answer to the following Question.*

As to the Question, whether any Person barely a Denison, and not naturalized by Act of Parliament in England, *or Act of Assembly in this Province, can legally sit and act as a Member of the Legislature; I shall beg Leave to answer this Question, in the Words of my Lord* Cook, *who in his fourth Part of the Institute of the Laws of* England, Page 47, *says,* An Alien cannot be elected of the Parliament, because he is not the King's liege Subject; *and so it is, although he be made a* Denison *by Letters Patent,* &c. *for thereby he is made,* quasi, seu tanquam Ligeus; *but that will not serve, for he must be,* ligeus Revera, *and not* quasi, &c. *and we have had such a one chosen, and disallowed by the House of* Commons, *for such a Person can hold no Place of Judicature.*

By a Letter of Denisation from the King, an Alien is licenced to purchase and enjoy Lands, which he could not legally do without, and that Patent of Denisation, is the King's dispensing with the Forfeiture, which he would otherwise have had of Lands purchased by that Alien; but it doth by no Means make him a natural Subject; that can be, and only be by Operation of Law, Pal. 14. Molloy, 413. *speaking of Lady* Carwell, *who was made Dutchess of* Portsmouth; *says the same was rather Honorary, than a Title consistent with the Laws of* England; *for though his Majesty is the Fountain of Honour, and may call the meanest of his Subjects to the highest of Dignities, yet it is their civil Qualifications, which make them capable of enjoying the Immunities and Privileges of Peers; but that flows from another Fountain, even the Law of the Realm, which as to Denisons, disables them to take so signal a Mark of Sovereignty without Act of Parliament.*

An Alien is not less an Alien here, than he is in England; *nor Denison more a natural Subject; and as I take it, neither can become one, either here or there, but by Operation of Law; and in my humble Opinion, none but a natural Subject, either born or made so by Law, can legally sit and act as a Member of the Legislature here, and the knowingly and designedly admitting others, would be, as I take it, repugnant to the Laws of* England, *and of more pernicious Consequence to its Interest, at this remote Distance, than any of all the Denisations, so severely remarked upon, by the Ministry of that Time, and give the present when its known unto them, just Umbrage of Suspicion that something more is intended by it, than is consistent with that Duty and Allegiance owing to his Majesty, and Dependance on the* British *Government, which your Excellency is principally concerned to take Care, shall not be in the least abated; but with Respect to* De Lancey, *the Person who gave rise to these Questions, I have observed, that in the Commission from King* James *to Col.* Dongan, *there was a Power of Legislation granted to the said Governor and Council, and whether the Proclamation of the Governor and Council, referred to in the Mayor's Certificate may not have been an Act of the then Legislature (such as it was) to naturalize the said* De Lancey, *in particular or joined with others, is to me unknown; he has for many Years sat and acted in the General Assembly, and has been generally deemed qualified so to do, and if any Act of the Legislature of that Time, gave a general or particular Naturalization to* De Lancey, *or others, though strictly speaking, it might not be legal, yet it having been nigh 40 Years since, if any such can be produced, and your Excellency can be indubitably assured the Proclamation there referred to, was an Act of Naturalization; I think it would be inconvenient, not to admit those concerned to receive the Benefit of it, so far as you legally may. All which is nevertheless most humbly submitted to your Excellency's great Wisdom.*

Naturalization, than by Virtue thereof; the Houſe after mature Deliberation on the whole Matter, came to the following Reſolutions, *viz.*

Reſolved, Nemine Contradicente, That the ſaid Mr. *De Lancey*, is duly returned and qualified, to ſit and ſerve in this Houſe, as a Member thereof.

Gentlemen,

I Have put an End to the laſt Seſſion, that I might have a freſh Opportunity of recommending to you, to provide as honourable and ample a Supply for the Support of this Government, and for as long a Term as was eſtabliſhed upon my Arrival.

It has not been pretended, that any Inconvenience has ariſen from the Confidence you then expreſſed in the Adminiſtration, and therefore I cannot in Duty to his Majeſty, and in Juſtice to my own Conduct, agree to a leſs ſufficient Proviſion, or to a ſhorter Term.

The Adminiſtration of Juſtice will require the ſame Encouragement, and the Collection of the Revenue the ſame Officers; without ſuch neceſſary Precautions, there will be great Deficiences, and the Burthen muſt at laſt fall upon the Land.

If there are any Laws formerly paſſed in this Province, which you are deſirous to have now confirmed by his Majeſty, the Agents only want your Inſtructions to ſollicit for them; and I ſhall very readily join my hearty Endeavours to obtain whatever will be to your Satisfaction.

As to that Part, relating to the Repairs of the Fort; the House being informed, that it (besides the Rooms already finished in the new Buildings) the Sashes are hung, and the two Rooms are finished, which are now almost compleated, his Excellency is very indifferent whether any more Rooms are finished out of Hand; it is the Opinion of this House, that the Remainder ought to be deferred until next Spring, especially since the Days are now so short that the Workmen can do but little Work in them.

Resolved, Nemine Contradicente, That this House will nevertheless, at their Sessions next Spring, provide a suitable Sum for compleating and finishing the new Buildings in his Majesty's *Fort George*.

As to that Part relating to the Encouragement of Persons to reside this Winter amongst the Six Nations of *Indians*, the House being credibly informed that several small Companies of our Inhabitants (and among them a Smith) are actually gone thither already, and that another Smith, with some other Persons, designed to follow from *Schenectady*, being thereto encouraged by the Benefit they reap'd upon the like Occasion last Winter; and the Season being too far spent to carry more Iron or Steel thither, they are of Opinion it would be of little Use to apply any Money for that Service at present: But the House being inclinable to endear those Nations to the *British* Interest,

Resolved, Nemine Contradicente, That they will at their first Meeting the next Spring, take care to provide such Sum or Sums of Money, as shall appear unto them to be necessary for securing the said Nations in his Majesty's Interest, and for encouraging the remote Nations to Trade with the Inhabitants of this Colony.

And as to that Part relating to the Agents at the Court of *Great-Britain*;

Resolved, Nemine Contradicente, That this House will at their said next Sessions, take care to discharge the Money due unto them by Virtue of, and pursuant to a Resolve of this House, the 10th of *June* 1724.

It being moved by some of the Members, that forasmuch as many of the Commissioners for letting to Farm the Excise on strong Liquors within this Colony, have not so much as sent in Lists for how much, and to whom the same is let (and others retained in their Hands, great Part of the Money received by them) contrary to the Directions of the Acts by which they are appointed Commissioners; this House ought to take Care for the effectual accounting and paying of the said Excise,

Ordered, *That the Treasurer, by circular Letters to be sent by him to such of the said Commissioners as have neglected to send in such Lists, recommend them, That they forthwith not only transmit the said Lists, but likewise to pay into the Treasury the Money arising or to arise thereby; and to acquaint them, that upon Failure of the one or the other, they, and each of them so failing or delaying, the same shall be prosecuted, as in and by the said Act is directed, without any Manner of Favour or Countenance whatever.*

Ordered, *That the said Treasurer do, within* 60 *Days after such Notice is given, cause such Prosecutions to be made accordingly, against all and every such of the said Commissioners, as already have, or hereafter shall be remiss in transmitting Lists, and paying in the Money received and to be received by them respectively, pursuant to the Directions and true Intent of the said Acts.*

Upon a farther Motion, that this House ought likewise to give Directions for the speedy and effectual collecting the Arrearages of the publick Taxes;

Ordered, *That the Members of this House do take out an Abstract from the Treasurer's Accounts now lying before this House, or from the Treasurer's Books, how much the respective Cities and Counties for which they are Representatives, is in arrear of all the said publick Taxes, and that they deliver the same respectively to the Mayor and Aldermen in the several Cities, and to the Justices in the Counties whom they represent; and that they charge them to take effectual Care for the Collection of the said Arrears, and for paying the same to the Treasurer; and that for that End they proceed against such of the Assessors and Collectors as shall be remiss therein, in such Manner as in and by the several Acts by Virtue of which such Arrears are due, is provided and directed.*

Then Mr. Speaker and the House attended accordingly, and being returned, Mr. Speaker resumed the Chair, and acquainted the House, his Excellency having made a Speech, he had obtained a Copy thereof; which being read is as followeth, *viz.*

" *Gentlemen,*

" I Can never begin with a Subject more worthy of your Attention, than the admirable Effects of " the uninterrupted Harmony that subsists between our " most gracious Sovereign and his Parliament; our Enemies have had no other Hopes, but from their unwearied " Artifices, and even popular Pretences, to weaken this " mutual Confidence, but without Effect; and this happy " Union it is, that renders *Great-Britain* a Pattern to all " *Europe* in Time of Peace, and lodges the Ballance of " Power in its Hands in Case of a War.

" Though you cannot equal his Majesty's Subjects at " Home in Ability to serve him, yet I am persuaded that " you will not yield to any in Loyalty and Inclination. " The great and constant Charge at which *Great-Britain* " maintains Forces for the Defence of this Province, in " a more eminent Manner than any of the neighbouring " Provinces partake of, as it is a very distinguishing Mark " of his Majesty's royal Care, so it calls upon you to " make the most natural Returns for so singular a Favour, " by providing honourably and amply for the Support of " his Government here; and since the Sums which you " have usually raised for that Purpose, have not amounted " any Thing near to so much as those issued from *Great-Britain* for your Security, it should induce you rather " to think of increasing than lessening your Supply, and " rather of extending than of shortening the Time of its " Continuance; and as no Occasion has been given to " alter your former good Opinion of the Administration, " I have Reason to depend on your providing in the most " hearty and effectual Manner for the Support of it in all " its Branches.

" I wish I could say the Laws for promoting a Trade " with the far *Indians*, and prohibiting it with *Canada*, had " been as duly executed as they were well intended; and " I leave it to your Consideration, whether a Method less " severe may not be more effectual.

" The great Success we have already had in the Trade " upon the River of *Onondaga*, and the noble Spirit that " animates the People to go on with it, gives us Encouragement to leave no Measures untried to establish and " increase it. The only Danger we have to apprehend, " is from the unwearied Artifices of the Inhabitants of " *Canada*, among our *Indians*, to alienate their Affections, " and particularly to interrupt this Trade, which has put " them into great Consternation, because it is so sure a " Means to strengthen our Interest, and to weaken theirs " with all the Nations of *North-America*. I am sorry to " inform you, that they have taken great Advantage this " Winter, of the Want of proper Persons from this Government, residing among the *Onondagas* and *Senekas*, " and have instilled groundless Fears into the Minds of " the five Nations, of Dangers that may arise to them " by this open Trade with the far *Indians*, which I have " done my utmost Endeavour to remove: But I am convinced that the most effectual Means to keep them steady, " will be your enabling me to maintain a sufficient Number of fit Persons constantly among them, as I have " formerly done with good Success. If I am earnest with " you on this Head, it is your own Safety, and that of " your Posterity, makes me so; all that I desire of you, " is, not to be wanting to yourselves.

" Your Agent, who is ever watchful in what relates " to your Interest, has acquainted me by the first Opportunity he had, that some Application had been made at " Home to your Disadvantage, which I will communicate " to you; this, with many other Instances of his Ability " and Diligence, will, I doubt not, confirm you in the " Resolution taken in your last Session upon that Head.

" I have received a Letter from the Governor of *Connecticut*, about finishing the Partition Line, which I " will lay before you, that you may make Provision for " so necessary a Work.

" I need now only remind you, that the Repairs of the " Buildings in the Fort, stand in need of your immediate " Care, that the Season proper to finish them, may not " be lost.

" I have no greater Pleasure than in contributing to " the public Service, and if there are any new Laws

" wanting

" wanting to that End, or any former Laws, that you " are desirous to have recommended for his Majesty's Con- " firmation; you may depend upon my Readiness and " Zeal to join with you in that, or any Thing else that " can make this Province happy and flourishing.

Whereupon the Houſe do declare, *Nemine Contradicente*, That ſuch a Reduction did not proceed from any Malverſation, conceived in his Adminiſtration of Juſtice in that Poſt; but becauſe he himſelf formerly, and all other Chief Juſtices before him, had no greater Salary than *One Hundred* and *Thirty Pounds*, *per Ann.* and that the preſent Circumſtances of the Colony, make them leſs able to allow exceſſive Salaries now, than they were then.

The Houſe being informed that ſeveral Merchants, and others, owe ſeveral Sums of Money for Duties impoſed by an Act, paſſed in the Year 1720, for ſupporting his Majeſty's Government in this Colony; and that ſome of them have owed the ſame many Months longer than the Time allowed by the ſaid Act, for the Payment thereof; and the Houſe being apprehenſive that the like Remiſneſs may happen in the Payment of the Duties impoſed by an Act publiſhed this Day, for ſupporting the ſaid Government for the Term of three Years; and the Houſe being ſenſible, that by ſuch Remiſneſs as aforeſaid, the Treaſurer of this Colony is, and will be diſabled to anſwer the Salaries of the ſeveral Officers, and the Contingences of the Government, as the ſame come due reſpectively, though he often advances of his own Money for that Pupoſe;

And, a Letter from the ſaid Commiſſioners, dated at *Albany*, the 8th Inſtant.

Reſolved, That this Houſe do humbly addreſs his Excellency, that he will be pleaſed to repreſent unto his Majeſty, or his Miniſters, that the building of two Veſſels in *Cadaraqui* Lake by the *French*, and their imploying them to tranſport Lime and other Materials, for erecting a Fortification at *Niagara*, is a manifeſt Infraction of the Treaties which ſubſiſt between the two Crowns: That the Conſequence thereof will not only tend to a Defection of the Five Nations, but alſo cut off the Path of all the far *Indians* from coming to trade with the Inhabitants of this Colony; which muſt on the one Hand, deprive us of all the Fur Trade; and on the other Hand, render the Frontiers of this Colony, as well as thoſe of the neighbouring *Britiſh* Colonies very much expoſed, both to the *Indians* and the *French*, in Caſe any Rupture might happen.

And that therefore his Excellency will be further pleaſed when he goes up, and arrives at *Albany*, to uſe ſuch Means as he may judge moſt proper and effectual, to prevent the erecting of the Fortifications above-mentioned, and to diſpoſe the Five Nations (as well for their own Safety, as of our own) that they do not now, nor at any Time hereafter, ſuffer or permit the *French* to build any Forts, Fortifications, or trading Houſes at *Niagara*, or at any Place or Places, to the Southward of the Lakes.

TWenty-two of the said Members appearing this Day in the Assembly Chamber in *New-York*, they sent Mr. *Gabriel Ludlow*, Clerk to the General Assembly, to acquaint his Excellency what Number of Members were met, and that they attended his Directions.

Mr. *Ludlow* being returned, brought Word, That his Excellency was pleased to order the immediate Attendance of the said Members, at the Council Chamber in his Majesty's *Fort George*, who immediately repaired thither accordingly, where they took the Oaths and made and subscribed the Declaration, &c. according to Law.

After which his Excellency directed them to return to the Assembly Chamber, and proceed to the Choice of a Speaker, and when they had so done, to acquaint him therewith.

Being returned, they unanimously made choice of *Adolph Philipse*, Esq; to be their Speaker, and conducted him to and placed him in the Chair accordingly.

Then the Clerk was ordered to acquaint his Excellency, that they had chose the said *Adolph Philipse*, for their Speaker; who returning, brought Word, that his Excellency would send a Message immediately by Mr. *Bobin*, Deputy Clerk of the Council.

The said Mr. *Bobin* came accordingly, with the following Message from his Excellency, *viz.*

Gentlemen, His Excellency expects your immediate Attendance at the Fort, to present your Speaker to him for his Approbation.

The House attended on his Excellency accordingly; and being returned, the Speaker resumed the Chair, and reported, *viz.*

That the House had presented him as their Speaker to his Excellency, who was pleased to approve of their Choice.

That after a short Apology in Behalf of himself, he had desired of his Excellency in Behalf of the whole House, That their Words and Actions might always have a favourable Construction, that the Members might constantly have Access to his Excellency, and that they and their Servants might be privileged and protected as usual, and that his Excellency was pleased readily to promise, That all this should be observed.

And that his Excellency had made a favourable Speech to the House, of which (to prevent Mistakes) he had obtained a Copy, and the same being ordered to be read; is as follows.

Gentlemen,

THE Choice which the People of this Province have so lately made of you to represent them, gives me a fresh Opportunity of knowing their Sentiments and Inclinations. I have always endeavoured to promote their Interest to the Utmost of my Ability, and it will add to my Pleasure to do it in the Manner, which they themselves desire.

When you inquire into the State of the present Revenue, I believe, you will find it insufficient to Answer the usual Expences for the Support of the Government. And considering the flourishing and increasing Condition of the Colony, it would be to its Dishonour, as well as Disadvantage, to lessen the Encouragement that has been given to the necessary Officers of the Government. I depend on your Readiness to supply this Deficiency, which will be the most solid and convincing Proof of your Gratitude to the best of Kings, who has shewn during the whole Course of his Reign, that the constant Employment of his Thoughts, and the most earnest Wishes of his Heart, tend wholly to the securing to his Subjects, their just Rights and Advantages. You need not fear that any of his Servants will dare to abuse the Confidence reposed in them, when they must expect, that their Neglect of Duty or Abuse of Trust, will draw upon them his just Displeasure.

You will find, that the Supply last provided for finishing the new Apartments in the Forts, has been employed with the utmost Frugality; and I hope, by the same Management, the Repairs of the Roof of the Chapel and the Barracks, which are in a Condition entirely ruinous, will require no very large Sum, though it is plain, that the Charge of doing it, will increase considerably, if it is delayed any longer than the next Spring, which obliges me to recommend it to your Care at present, that Provision may be made for so pressing and necessary a Work.

I must remind you, that your Agent continues his Diligence, in watching over the Interests of the Province, though he has remained a long Time without any Allowance; so generous a Conduct on his Part, will not fail of engaging you to take Care, that his past Services may not go unrewarded, and that so useful a Person may be fixed in your Service, and a settled Provision made for his Encouragement.

I lay before you my late Conferences with the six Nations, in which I flatter myself, that I have contributed, not a little to fix them in their Duty to his Majesty, their Affection to his Government, and their just Apprehensions of the ill Designs of the People of Canada, *in fortifying so near to them at* Niagara. *I have sent a fit Person to reside among the* Seneka's, *this Winter, who is not permitted to Trade, and will thereby have the more Weight and Credit with them. I doubt not of your joining with me in taking such further Measures, as are necessary to make the six Nations remain an effectual Security to our Frontier. The indefatigable Endeavours of the* French, *to employ all possible Methods, whether of Art or Force, to make themselves Masters of these Nations, shew what Opinion they have of their Importance. And their Diligence calls upon us to lose no Time and spare no Cost in disappointing such dangerous Attempts, and in doing every Thing that may conduce to our Safety on that Side.*

The Trade on the Onondago's River *has increased considerably, and by the best Inquiry I could make, more of the far Nation of* Indians *have been there this Summer, than ever before. But I must express to you my Concern at the disorderly and fraudulent Conduct of some of our own People at that Trading Place, who have used many of the* Indians *in an unjust and sometimes in a violent Manner. These Abuses if not remedied and prevented in Time, may give such a Disgust to the* Indians, *as to discourage them from continuing to come thither on Account of Trade, and thereby lose the good Effects of what has been so happily begun, and carried on with so much Success. I hope you will think of proper Expedients to cure this growing Evil, and among other Things, I am of Opinion, that if that Trade be confined to one certain Place, and a fit Person appointed to reside there during the Season, with Power to receive Complaints from the* Indians, *and redress their Grievances, and the Traders obliged to be determined by his Judgment, on pain of being fined in Case of Refusal, it might go a great Way to answer the End proposed. I shall gladly join with you in this or any other proper Measures, to preserve and increase our Interest with the far Nations, which this Trade will undoubtedly do, when duly regulated.*

You may depend on my Concurrence, to the Utmost of my Power, in any Laws that you shall frame for the publick Good, and in my hearty Endeavours to obtain his Majesty's Confirmation of them, and of as many of the Laws formerly enacted, as you shall desire, which will at the same Time, necessarily require the continual Solicitation of your Agent at Home.

And now, Gentlemen, that I have mentioned to you what Particulars I had to recommend for the publick Service, I have only to add in general, That I hope your present Meeting will be an eminent Instance, of the good Effects of an intire Confidence, between the several Branches of the Legislature; it will then appear in the clearest Light, that an Administration, is never strong and well supported, as by the general Voice of the People, nor the People ever so well secured in their Liberty and Property, as by the Governments being enabled to see the Laws duly executed.

Which being read,

Ordered, That the ſame lie on the Table for the peruſal of the Members of this Houſe.

Major *Philipſe* repreſenting to the Houſe, a great many Bills of Credit ſtruck by and Current in this Colony, are ſo ragged, ſhattered and torn, that their real Value can ſcarcely be diſcovered, whereby Diſputes, Scruples and Difficulties frequently ariſe in receiving and paying the ſame. And therefore moved, that a ſufficient Number of new Bills, may be ſtruck to be exchanged for ſuch old Bills as aforeſaid. And to the End the ſtriking ſuch new Bills might not be attended with the uſual Charge to the Publick, Mr. *De Lancey*, Capt. *Rutgers*, Mr *Livingſton*, and the ſaid Major *Philipſe*, offered to ſign the ſame *Gratis*, by which means no other Charge will accrue, than for printing and exchanging them.

Ordered, That Col. *Schuyler*, Capt. *Van Horne*, Mr. *Beekman* and Mr. *Le Count*, or any 3 of them, be a Committee, to examine what Number of Bills of Credit now current in this Colony and to what Value, are neceſſary to be renewed for the Purpoſe aforeſaid, and to report their Opinion thereof to this Houſe.

Ordered, That the Petitioner ſerve the ſaid Col. *Hooper*, with a Copy of the ſaid Petition, and that Mr. *Hooper* lay before this Houſe, within eight Days thereafter, his Objection to the Prayer thereof, if any he has thereto.

CAPT. *Van Horne* from the Committee, appointed to examine what Number of Bills of Credit, and to what Value are neceſſary to be renewed, reported, That they had made Enquiry therein, and were of Opinion, that new Bills to the Value of *Three Thouſand Pounds*, will be ſufficient to be exchanged for ſuch of the Bills ſtruck and iſſued in the Years 1714, 1717 and 1720, as are become ſo ſhattered and torn, as makes the Value for which they were ſtruck difficult to be known; which report being read; was approved of by the Houſe. He alſo reported from the ſaid Committee, That they had maturely conſidered of the Reſolutions aforeſaid, and are of Opinion, that the Salaries and Contingences then reſolved to be paid out of Monies ariſen or to ariſe, by Virtue of the Act for ſupporting this Government during the Term of three Years, are ample and ſufficient, and therefore no Augmentation ought to be made thereto;

Which Report being read, was agreed unto by the Houſe, *Nemine Contradicente*, and thereupon the Houſe came to the following Reſolutions, *viz.*

Reſolved, *Nemine Contradicente*, That it's the Opinion of this Houſe, that the Salaries and Contingences mentioned in the aforeſaid Reſolutions, the 12th of *May* laſt, are ample and ſufficient, and that no Augmentation ought to be made thereto, nor any Alteration therein during the ſaid three Years.

Reſolved, *Nemine Contradicente*, That if the aforeſaid three Years Support, ſhould prove inſufficient to diſcharge Salaries and Contingences according to the Reſolutions aforeſaid, this Houſe will find Ways and Means, effectually to make good ſuch Deficiency, as of the other Hand a Surplus, ought to remain towards a future Support.

Reſolved, *Nemine Contradicente*, That this Houſe do by an humble Addreſs, repreſent theſe Matters to his Excellency, with a Requeſt therein, that no higher or other Warrants be iſſued in Council, on Account of Support of Government, from the 1ſt Day of *July* laſt, and during the ſaid three Years, than thoſe particularly expreſſed, in the Reſolutions abovementioned, to the End a mutual Confidence and good Underſtanding, may be preſerved among the ſeveral Branches of the Legiſlature.

To his Excellency William Burnet, *Esq; Captain General and Governor in Chief of the Provinces of* New-York, New-Jersey, *and the Territories thereon depending in* America, *and Vice-Admiral of the same*, &c.

May it please your Excellency,

WE the General Assembly of this Colony, having taken into mature Consideration, the State of the present Revenue for Support of Government, and the Salaries of the necessary Officers thereof, did in the first Place inquire, how much is arisen by the Duties alone, which are imposed for the said Support, and finding the same to have amounted in the first three Months, ending the 1st of this Instant, to the Sum of *One Thousand, Two Hundred Thirty Three Pounds, Ten Shillings* and *Nine-pence*, are humbly of Opinion, That the said Duties and the Taxes laid by the Act for Support of Government, during the Term of three Years, will fully answer to discharge all the Salaries of the necessary Officers, and all the contingent Charges and Services of the Government, as the same were resolved to be provided for, by the late General Assembly on the twelfth Day of *May* last.

And we humbly beg Leave to assure your Excellency, that if the said Duties and Taxes should happen to prove insufficient to discharge the Salaries and Services aforesaid, the General Assembly will chearfully find out Ways and Means, effectually to make good

ſuch Deficiency, and they conceive on the other Hand, That if it ſhould exceed, ſuch Surplus ought to remain in the Treaſury, towards Support of Government after the Expiration of the ſaid three Years.

We did in the next Place, examine what Proviſion was agreed and reſolved upon by the ſaid General Aſſembly for the Services abovementioned, on the 16th Day of *October* laſt, and comparing the ſame with what they reſolved, on the 11th Day of *May* following, found but very little Difference between them; and beg Leave to acquaint your Excellency, That having deliberately conſidered the ſeveral Particulars thereof, we were unanimouſly of Opinion, that the ſeveral Salaries, Contingences and Services, reſolved upon on the ſaid 12th Day of *May*, are ample and ſufficient, and that no Augmentation ought to be made thereto, nor any Alteration therein during the aforeſaid three Years.

We therefore humbly Addreſs your Excellency, that no higher or other Warrants be iſſued in Council, on Account of Support of Government, from the 1ſt Day of *July* laſt, and during the three Years aforeſaid, Than thoſe particularly expreſſed in the Reſolution laſt mentioned, that on the one Hand no unexpected Deficiency may happen, and on the other a mutual Confidence be preſerved among the ſeveral Branches of the Legiſlature.

Signed by Order of the General Aſſembly,

The House adjourned to 10 of the Clock, To-morrow Morning.

Die Jovis, 10 *ho. A. M. Nov.* 10, 1726.

THE House taking into serious Consideration, the Letter of the Governor of *Connecticut* to his Excellency, dated at *New-Haven*, the 20th of last Month, concerning the Partition Lines, between the two Colonies, are unanimously of Opinion, That in Case this Government had provided a Fund sufficient to defray the Charge and Expence requisite on their Part for perfecting the said Lines, yet the Season of the Year would not allow to do the same. And the House cannot but look upon their Request, of finishing those Lines by themselves only, to be more extraordinary, because they cannot but remember, that our Commissioners at two several Meetings, declined to do it *Ex parte*, although they had a Law (approved and confirmed by his Majesty) which impowered them so to do, but rather chose all friendly Means to dispose them, that it might be done in Conjunction. And for as much, as (besides the Encroachments aledged to be made by them at *Westenkook*) five of their People, *to wit*, *Joseph Keeler*, *Joseph Lees*, *James Northrup* and *Jabish Smith*, together with *Edmond Lewis*, Surveyor, have been in the Manor of *Cortlandt*, at or near a Point, called *Manack* (in the Occupation of *Samuel Brower*) and being discovered there, about break of Day so lately as the 14th *ultimo*, and pretending they came to run and measure the Distance from *Hudson's* River to *Ridge* Field. This House is of Opinion, That those of that Colony have often practised and still will practise, by such private Ways and Means, to try how and in what Manner these Lines could be fixed most for their Advantage.

Wherefore this House, humbly desires his Excellency, not to consent or permit them to run, much less to fix the said Lines *Ex parte*, and that he will be pleased to signify the Sentiments of this House to the Governor of *Connecticut*.

The House took into Consideration, the Petition of *Anna Dorothy Barcklay*, recommended to them by his Excellency, on the 27th of last Month, and being informed that the Demand thereof, was disallowed by the General Assembly, at their passing the two long Bills, as also at other Times since. Are of Opinion, that what may be justly due upon that Score, ought to have been paid by the Commissioners of *Indian* Affairs at *Albany*, out of the Sums they annually received from the Treasury. And that the same ought still to be referred and recommended to the said Commissioners.

Major *Philipse* reported from the Committee of the whole House, That they had come to the following Resolutions, upon the Remainder of his Excellency's Speech; which being read, were agreed to by the House, and are as follows *(to wit.)*

Resolved, That Capt. *Rutgers* and Capt. *Van Horne*, shall and hereby are impowered to have the Direction and Inspection of buying Materials and imploying able Workmen, to new Shingle the Chapel and such Part of the Barracks in his Majesty's *Fort George*, as may require the same, and that they Cause the same to be done the next Spring or Summer in the best and cheapest Manner.

Resolved, That the Charge thereof, be defrayed out of the double Duties, Fines and Forfeitures, arisen or to arise by Virtue of an Act passed this Session, and by Virtue of the Act which is thereby explained and enforced.

Resolved, That in Case Money might not come soon enough into the Treasury by the Means above-mentioned, it shall be lawful for the Treasurer to borrow what may be wanting for the said Shingling, out of the Money in his Hands, by Virtue of the Act, entitled, *An* Act, *for laying an Excise on all strong Liquors retailed in this Colony, passed in the 12th Year of her late Majesty's Reign*; to be made good again out of the said double Duties, Fines and Forfeitures; and in Case of a Deficiency, by such other Ways and Means as shall hereafter be provided by this House.

Resolved, That the other Repairs of the said Barracks be referred to the Consideration of this House at their next meeting.

Then the House adjourned to 4 of the Clock in the Afternoon.

Die Jovis, 4 *ho. P. M. Nov.* 10, 1726.

A Message from the Council, by Mr. *Harrison*, that they have agreed to the Bill, entitled, *An* Act, *for regulating and securing the* Indian *Trade to the* Westward *of* Albany, *and for defraying the Charge thereof*; without any Amendments.

Then the House adjourned till 10 of the Clock To-morrow Morning.

Die Veneris, 10 *ho. A. M. Nov.* 11, 1726.

THE House taking into Consideration, that *Dirck Egbert*, their Door-keeper, has been at some Charge and Expence in scrubbing and cleaning the Assembly Room and Lobby, do humbly address his Excellency to issue his Warrant in Council on the Treasurer, for paying the Sum of *Twenty Four Shillings*, to the said *Dirck Egbert*, or Order.

That after a ſhort Apology for himſelf, he had deſired his Excellency in Behalf of the Houſe, that their Words and Actions might always have favourable Conſtructions, That the Members might at all Times have acceſs to his Excellency, and that they and their Servants, might have the ſame Privileges and Protections as uſual; all which his Excellency was pleaſed readily to promiſe, and that after this his Excellency had been pleaſed to make a Speech, of which (to prevent Miſtakes) he had obtained a Copy, and the ſame being read; is as follows.

Gentlemen,

THE Death of our late Sovereign of ever glorious Memory, and the happy Acceſſion of his moſt excellent Majeſty, have already filled your Hearts, with all that dutiful Subjects muſt feel upon ſo great an Occaſion, and the Choice which People have at this Time made of you to repreſent them, gives you an early Opportunity of expreſſing their loyal Sentiments upon it.

You find that I have loſt no Time, nor ſpared any Expence, in Order to ſecure the ſix Nations for ever to the Britiſh *Intereſt, by making a Settlement of ſome Strength among them, convenient for Trade with the far* Indians, *as well as themſelves, and by ſupporting it in ſuch a Manner, as I hope with your Aſſiſtance, will prevent any Attempts againſt it. The Conſequence of this Undertaking cannot appear better than by the great Uneaſineſs which it has given to the* French, *who, I am apprehenſive, that their unjuſtifiable Pretenſions and Incroachments upon our* Indians, *and their Endeavours to ingroſs the Trade with all the far* Indians, *will be defeated by it, that they are under ſo much Concern, you will plainly ſee by the Governor of* Canada's *Summons, to my Officer at* Oſwego, *to abandon it, and by his Letter delivered to me, by the Governor of* Trois-Riveres, *wherein he complains of the Enterprize in the ſtrongeſt Terms; which Papers, together with my Anſwer, I ſhall lay before you.*

I cannot avoid obſerving to you, that the Fund provided by the late Aſſembly for this Service, has not in any Sort anſwered the Greatneſs of the Charge, nor even any Part worth mentioning of what it was intended to produce, ſo that the whole has been performed at my own Expence, or upon my private Credit, and this Burden, I choſe to take intirely on myſelf, rather than ſuffer the Deſign to run the Riſk of being loſt, as it probably would by the leaſt Delay. I have thus engaged myſelf upon a full Confidence, that you would not fail to provide for the immediate Diſcharge of a Debt contracted for the Province, when its Safety required it in the moſt preſſing Manner. The Particulars ſhall be laid before you, as far as the Accounts are compleated, and I hope you will make a large Allowance for what is not yet brought to Account, and make full Proviſion of what ſhall be requiſite for the next Year, to ſupport and maintain this important Poſt.

I muſt remind you of the Inconveniences which ariſe from the Limits of the Province being undetermined. This is not only a great Diſcouragement to its being well peopled and improved, but likewiſe a conſtant Occaſion of Diſorders and Quarrels with our Neighbours: Our late Agreement with the Government of Connecticut, *has indeed put a ſtop to them for the preſent on that Side; but unleſs you make Proviſion for the compleating the Lines to be run in Conſequence of it, which that Province has made repeated Application to have done, the Miſchiefs intended to be prevented by that Agreement may poſſibly happen; you are no Strangers to the Differences which have ſubſiſted for ſome Years, between the Patentees of* Weſtenhook, *and the Inhabitants of the Province of* Maſſachuſets-Bay; *upon the Application of thoſe Patentees, I have made an Agreement with that Government, to abſtain on both Sides from any new Attempts, till the Lines between that Province and this ſhall be run; and their Aſſembly has made a Propoſal to treat with this Government, about thoſe Limits, and have named Commiſſioners for that Purpoſe; I ſhall lay their Reſolves before you, that you may take ſuch Meaſures on that Head, as you ſhall think moſt expedient.*

I have lately been informed of a Diſturbance, that happened between the Inhabitants of Orange *County, in this Province, and* Hunterdon *County, in* New-Jerſey; *which I know of no Expedient to put an End to, but by compleating the Diviſion Line on that Side, which will require a ſufficient Proviſion from you.*

There has been ſo much already done, to beautify and repair the Buildings in the Fort, that I am perſuaded you will not Leave that work imperfect. The Soldiers Barracks are in a very ruinous Condition, and will require a much greater Charge if what is neceſſary to keep them from falling, be not done without Delay.

I have the Satisfaction to inform you, that your Agent has been very active in ſoliciting the Affairs of this Province, and particularly, that he has ſucceeded in obtaining that preſſing Inſtantes might be made at the Court of France, *againſt the Stone Houſe built at* Niagara. *You cannot but be ſenſible that, his Vigilance will be very requiſite to prevent any Miſrepreſentation which the* French *may make of our Building at* Oſwego, *as well as to bring the other Matters committed to his Care to a happy Concluſion, and therefore I make no Queſtion of your continuing to give him all ſuitable Encouragement.*

The Seaſon of the Year being ſo far advanced, I hope you will proceed with all poſſible Diſpatch, that you may finiſh what I have recommended to you; and if you have any Thing to propoſe for the Benefit of the Country, I ſhall very readily join with you in it, to the Utmoſt of my Power.

W. BURNET.

To his Excellency *William Burnet*, Esq; Captain General and Governor in Chief of the Provinces of *New-York*, *New-Jersey*, and the Territories thereon depending in *America*, and Vice Admiral of the same, *&c.*

The humble Address of the General Assembly of the Colony of *New-York*.

May it please your Excellency,

WE *his Majesty's most dutiful and loyal Subjects the General Assembly of this his Colony, being deeply sensible of the Death of our late Sovereign, of ever-glorious Memory, and equally transported with the rightful and peaceable Accession of his present Majesty to the imperial Crown of* Great-Britain, *and all the Dominions thereunto belonging, think it our Duty in the Beginning of this Session, humbly to address his Majesty on these two great Occasions, and to assure him of the Loyalty and Affection of the People whom we have the Honour to represent; and therefore desire that your Excellency and the Gentlemen of his Majesty's Council of this Colony, will be pleased to join therein.*

We embrace this Opportunity to thank your Excellency in the most respectful Manner for your obliging Speech to this House, and to assure you, that the several Matters therein recommended to us, shall, in the Course of our Proceedings, be as maturely considered as the Season will allow; and such Provisions made, as the Nature of Things and Circumstances of the Colony will admit. And we do in a more particular Manner own, that we esteem the engaging your private Credit for compleating the trading House at Oswego, *(over and above the Provision made for it by Act of Assembly) as a Mark of your Zeal for encouraging the* Indian *Trade, and securing the Six Nations in the* British *Interest; for which we give you our hearty Thanks, and shall endeavour to find out Ways and Means to defray the reasonable Charge thereof.*

Upon this Head we cannot but observe with the greatest Surprize, the imperious Manner in which the Governor of Canada *summoned and demanded that we should demolish and abandon that trading House, and the Letter in which he pretends to give a Colour for that Proceedure: We persuade ourselves, that the true Light in which your Excellency's Answer has put that Matter, will convince him, that his Pretensions are unjust and without Foundation.*

We humbly hope his Majesty will represent this unwarrantable Proceeding to the French *King, as we are glad to find our Ambassador at that Court had Orders to do about the Stone House built by the* French *at* Niagara, *on Ground belonging to the five Nations, allowed by the Treaty of* Utrecht *as Subjects of the Crown of* Great-Britain.

By Order of the General Assembly,
ADOLPH PHILIPSE, *Speaker.*

Ordered, That Mr. Speaker sign the same in behalf of the whole House.

Ordered, That Col. *Hicks* and Mr. *Merril*, do wait on his Excellency, to know when he will be pleased to be attended by this House with their Address.

The Treasurer attending without, was called in, and laid before this House, General Accounts of his Majesty's Revenue in the Province of *New-York*, from the 20th of *April*, 1726, to the first of *July*, 1726; as also from the first Day of *July*, 1726, to the first Day of *July*, 1727. And likewise,

An Account of the gross Amount of the Duties of the several Branches of his Majesty's Revenue in this Province, from the first Day of *July* last, to the first Day of *October* Instant, amounting to *One Thousand and Forty Six Pounds Fifteen Shillings*.

Ordered, That the said Accounts lie on the Table for the Members to peruse.
